現時教育界很注重學生在STEM和自主學習上的發展，香港海洋公園學院全新活動「全方位學習之旅（學生團體票）」正好回應相關的學習需要。活動包括網上活動及園內參觀，讓學生先對公園的活動有初步認識，再到園內展開探索及實地考察活動，最後提供工作紙供學生鞏固知識。透過參與此活動，學生能從實際體驗中學習，豐富學習經歷，實現全人發展的目標。故此，歡迎老師、學生積極參與相關活動，期望他們從中得到寶貴的多元學習經歷。

Today, the education profession sector focuses on STEM and students' self-directed learning development. OPAHK's new programme – Life-wide Learning Journey (Student Group Tickets) addresses these needs. This programme includes both online programmes and onsite visits. This allows students to first gain a preliminary understanding of the activities, and then followed by site visits in the Park for more hands-on experience. An activity worksheet is provided to students to comprehend what they have learned. Through participating in the programme, students make progress through experiential learning to achieve the aims of whole-person development. I welcome teachers and students to join this programme as a way to have valuable yet diversified learning experiences.

海洋公園在多元豐富的環境中，提供綜合而持續的教育活動，受全港幼稚園、小學及中學的歡迎。近年，香港海洋公園學院更安排全方位學習之旅（學生團體票）。各校在完成活動後，均給予正面評價，並指出活動既能提升同學的學習興趣，老師亦可透過全方位的學習加深對同學的認識。相信往後參加活動的學校會持續增加，亦期望全港師生都可透過饒富趣味的活動學習，把握親近大自然的機會，在歡樂的氛圍下學與教。

In its diverse environment, Ocean Park delivers comprehensive and continuous educational activities, which are very popular among kindergartens, primary and secondary schools. In recent years, OPAHK offers the Life-wide Learning Journey (Student Group Tickets) that has received positive feedback from the school community. Students can increase their interest in learning and teachers deepen their understanding of their students through these life-wide learning activities. I believe that more and more schools will sign up in the future. By joining these interesting and informative programmes, both teachers and students can grasp the opportunity to get closer to nature, and to teach and learn with joy.

香港海洋公園學院致力在多元豐富的環境中提供多元化活動，超過三十個不同主題的體驗式學習活動，讓學習從校內延伸至校外，是推行全方位學習活動的理想場地。例如「微小生物班」，讓幼兒運用各感官觀察及欣賞大自然。我冀望讓全校一起參與學院的多元化活動，培養學生的好奇心及興趣，啟發他們的思考及探究精神，培養終身學習的能力。

OPAHK delivers education programmes in the diversified environment of Ocean Park. With more than 30 themes, Ocean Park allows students to extend their learning beyond the school campus. It is definitely an ideal destination for life-wide learning. For instance, the "Plankton" series is able to develop young children's sensory-perceptual ability and encourage them to appreciate the beauty of nature. I hope every child in our school can participate in these activities, cultivate their curiosity, and be inspired to learn and kick-start their lifelong learning journey.

全方位學習一直是學校樂於採用的其中一種學習策略，而海洋公園正是實踐全方位學習的一個合適的場所。香港海洋公園學院利用獨有的資源，讓莘莘學子們走出教室，學會珍惜保護環境。公園提供的課程多樣化，帶領學生從課本以外，認識全球氣候變化、能源及科技發展、海洋生態等議題，期望學生能把所得知識帶進社區。由走出教室至走入社區，活動讓學生通過觀察、體驗、分享的過程，豐富了學習經驗，也能藉此開拓視野，實在值得多加推廣，給予支持。

Life-wide learning has always been one of the strategies that schools willingly implement. Ocean Park is a suitable venue for this purpose. With its unique resources, OPAHK allows students to step outside the classroom and learn to treasure and conserve the environment. The diverse programmes offer students exposure to various topics, for example, global climate change, energy and technology development, marine ecology, and many more, encouraging them to give back to the community what they have learnt in the Park. From classroom to the community, students can enrich their learning and broaden their horizons through personal experience, by observation and sharing with their peers. I highly recommend and support this programme.

本校安排了一個有關海洋動物的計劃，學生對於海洋生物的認知卻僅限於圖片及老師的描述。到訪海洋公園可以讓他們見到真實動物的外觀和行為，對內容有了更深刻的認識。

Our school arranged a project on marine animals. Previously, students could only learn through photos and from teachers' descriptions. But by paying a visit to Ocean Park, students could see the animals with their own eyes and observe their behaviour firsthand. This has helped them understand more about the marine animals that they have been studying.

全方位學習之旅（學生團體票）蘊含動物元素，配合學校主題及需要。動物主題可以加深學生對動物的認識，了解不同動物的特徵，提升學習興趣。

The Life-wide Learning Journey (Student Group Tickets) includes animal elements which match our school's own projects and teaching needs. Animal-themed projects can deepen student understanding of animals, allow them to learn about different animal characteristics, and raise their interest in learning.

整體而言，教師和家長的回饋是正面的，他們喜歡課堂活動，更認為是非常寶貴的經驗。教育大使十分出色，以有趣及互動的方式教授，令學生能銘記所教的具體事實。

The overall feedback from teachers and parents has been positive. They enjoyed the activities and treasured this valuable experience at the Park. The educators did a wonderful job to deliver the activities in an interactive and fun way, so that the children can easily recall the learning details.

香港海洋公園學院的教育活動以故事形式進行，切合學校需要，所提供的教學資源能幫助學生在活動後溫故知新。除此之外，教學資源亦能引起高年級學生對動物及大自然的興趣，積極推動學生做專題研習，並提升活動的投入度，樂於與家長分享活動內容。

The education programmes provided by OPAHK are delivered in a storytelling format which meets our school's needs. The learning resources provided also help students to refresh their learning. Moreover, these resources arouse children's interest in animals and nature, and motivate them to work on related projects proactively. The children also readily share what they have learned with their parents.

香港海洋公園學院的活動富有教育意義，讓學生能夠親身發掘大自然。學生運用自己的感官了解及發現更多，並主動發掘、提問。學院提供不同的教學資源，包括到校活動和網上影片，多元化活動能增加學生的學習興趣。

The programmes in OPAHK are educational and encourage students to discover nature by themselves. Students can use their senses to understand, discover and explore proactively. OPAHK provides diversified teaching resources that include outreach activities and online videos which can raise student's motivation to learn.
