CHAIRMAN'S MESSAGE

主席獻辭

IT'S BEEN A 'PANDASTIC' YEAR FOR OCEAN PARK

與大熊貓共度非同凡響的一年

The highlight of Ocean Park Corporation (OPC) in financial year 2024–2025 is undoubtedly our city's six giant pandas. The arrival of twin cubs Jia Jia and De De, born to proud parents Ying Ying and Le Le, together with the adorable newcomers An An and Ke Ke gifted by the Central Government, have brought new energy and joy to our community. This newly extended and enchanting giant panda family at Ocean Park shines a light on our commitment to conservation and education, widens the scope and increases the depth of our conservation and education programmes, inviting more people to rediscover the passion behind our work.

在二零二四至二零二五財政年度，海洋公園公司（公園）的矚目焦點，毫無疑問是本港六隻大熊貓：盈盈、樂樂、牠們的一對寶寶加加和得得，以及由中央政府贈予的可愛新成員安安和可可，牠們為社區帶來無比的活力與喜悅。隨著新成員加入人見人愛的大熊貓家族，大家更關注公園對保育與教育投入，亦進一步加深及擴闊公園的保育及教育工作，令更多人重新感受我們工作的熱誠與初心。

Ying Ying's remarkable delivery, one day before her 19th birthday, made her the world's oldest first-time giant panda mother on record. Along with our earlier record-breaking achievements — Jia Jia, the world's oldest giant panda living under human care, and An An, the world's longest-living male giant panda under human care — reinforces Ocean Park's global reputation as a leader in protecting some of our planet's most precious species.

Now, with six giant pandas — the highest number in a facility outside the Chinese Mainland — ignited a wave of giant panda fever across the city, reminding everyone that animals can inspire curiosity and foster education.

It also enables us to take a leap forward in manifesting the gist of OPC's vision and mission: The care and breeding of giant pandas, amongst other precious species, is ultimately for the benefit of humanity — especially the young generation who will carry forward the legacy of compassion and stewardship for nature.

Inspiring future conservation leaders

OPC proudly embraces our unique role in supporting the government's youth development objectives by nurturing conservation leaders, inspiring a profound appreciation for nature and fostering a sense of responsibility that will shape a sustainable future.

Our educational content is grounded in first-hand experience. For example, along with the Ocean Park Conservation Foundation, Hong Kong (OPCFHK), and key government departments and other conservation partners, OPC remains at the forefront of wildlife rescue and rehabilitation. We attend to cetacean strandings, rescuing and rehabilitating local wildlife including coral reefs, reef fish, critically endangered turtles and more.

盈盈在十九歲生日前一天成功分娩，成為有紀錄以來最年長初次成功產子的大熊貓。連同我們過往創下的紀錄——人類照顧下全球最長壽的大熊貓佳佳，以及人類照顧下全球最長壽的雄性大熊貓安安——進一步加強海洋公園在保護地球珍貴物種方面的國際聲譽。

現在海洋公園擁有六隻大熊貓，成為中國內地以外最多大熊貓聚居之地，並在全城掀起大熊貓熱潮，印證動物能引發好奇心和激起學習興趣。

這亦進一步體現公園願景與使命的核心精神：照顧及繁衍大熊貓等珍貴物種，最終造福人類，特別是年輕一代，希望他們繼續傳承人類關愛及守護大自然的精神。

啟迪未來保育領袖

公園積極擔當獨特角色，配合政府的青年發展目標，培育保育領袖，啟發他們對大自然的尊重和愛護，並建立責任感，塑造人類可持續的未來。

我們的教育內容著重親身體驗。例如，公園聯同香港海洋公園保育基金、相關政府部門及其他保育夥伴，一直站在野生動物拯救與治療工作的最前線。我們處理鯨豚擱淺個案，拯救與復康本地野生動物，包括珊瑚礁、珊瑚魚類、極度瀕危的龜類等。

Through educational displays and programmes, we let our younger generation understand the challenges faced by animals in the wild and the importance of safeguarding biodiversity. Equally important, we demonstrate how individuals could contribute to protect wildlife as well as empower others to grow with nature.

We successfully mobilised hundreds of schools and thousands of students, as well as the public to take part in environmental actions in the community through various initiatives such as the **Ocean Park Conservation Alliance**, **Seahorse Rangers**, **Mission R** and more, transforming keen participants into active conservationists.

Our reach extends beyond Hong Kong's borders. We organise study tours for local, Mainland and overseas students to foster a global mindset among young conservation advocates.

During the financial year, OPC also became the first entity outside the Chinese Mainland to receive dual accreditation from key study tour authorities. We were recognised by the Guangdong Province Study Tour Association as a 'Study Tour Base in Guangdong Province', and by the Guangzhou Study Tour Association as one of the 'Fourth Batch of Study Tours Base for Primary and Secondary School Students in Guangzhou'. These accreditations have further solidified OPC's leadership in conservation education, and bolstered Hong Kong's attractiveness as a destination for education tourism.

通過教育展覽與課堂，我們讓年輕一代理解野生動物所面對的挑戰，以及守護生物多樣性的重要性。同時，我們展示了個人如何可以為保護野生動物出一分力，與大自然一起茁壯成長。

我們成功動員數百間學校和過萬名學生及公眾通過「海洋公園保育聯盟」、「海馬同學會」、「逆瀕行動」等多項社區環境保育計劃，將熱心參與者轉化為積極行動的保育者。

我們亦將影響力延伸至香港以外，為本地、內地及海外學生舉辦研學考察團，培養年輕保育倡議者的國際視野。

在本財政年度內，公園亦成為中國內地以外首個獲得主要研學機構雙重認證的單位。我們獲廣東省研學旅行協會認可為「廣東省研學旅行實踐基地」，並獲廣州市研學實踐協會評選為「廣州市第四批中小學生研學實踐教育基地」之一。這些認證進一步鞏固公園在保育教育上的領導地位，亦提升香港作為教育旅遊目的地的吸引力。

Recognising the value that conservation education brings to the community and our country, we are privileged to champion these efforts in Hong Kong. Our heartfelt gratitude goes to our government and business, academic and community partners whose support has been instrumental throughout these initiatives.

Growing business momentum

Beyond achievements in conservation and education, the arrival of more giant pandas has rejuvenated Ocean Park's edutainment business. This has been a powerful catalyst that reconnects the public with Ocean Park on two dimensions. First, by driving visitation growth while reintroducing the public to Ocean Park's ongoing transformation; and second, by re-establishing the giant pandas as a shared cultural icon across Hong Kong society.

我們深明保育教育為社區與國家帶來的價值，能在香港推動相關工作，實感榮幸。我們衷心感謝政府，以及工商界、學界與社區夥伴一直的鼎力支持，讓各項計劃得以順利推展。

業務添動力

除了在保育與教育方面的成果，大熊貓新成員的加入亦成為一股催化力量，為海洋公園的寓教於樂業務注入新動能。大熊貓從兩個層面重新連繫公眾與海洋公園：第一，帶動入場人次增長，同時讓公眾重新認識海洋公園持續轉型的進程；第二，讓大熊貓再次成為香港社會共同的文化標記。

Photo source: HKSAR Government
圖片來源：香港特別行政區政府

Capitalising on the citywide giant panda craze, the Park strategically enhanced giant panda visibility and engagement, allowing visitors to observe and document our giant pandas' daily activities as well as the developmental milestones of Jia Jia and De De.

We also created **Panda Friends**, an original intellectual property (IP) based on the distinct personalities, daily interactions and authentic stories of our six giant pandas. Results are encouraging with retail revenue achieving significant year-on-year growth.

The financial outcome is encouraging. Including the government's conservation and education subvention for HK\$280 million for the financial year, OPC has achieved surplus from operations or earnings before interest, taxes, depreciation, and amortization (EBITDA) of HK\$42.4 million. This demonstrates operational prowess and our growing capacity to sustainably reinvest in conservation, education and visitor experiences with reduced reliance on government funding support.

憑藉全城大熊貓熱潮，公園策略性提升大熊貓的曝光度與互動體驗，讓訪客可觀察並記錄大熊貓的日常活動，以及加加和得得的成長里程碑。

我們亦以六隻大熊貓各具特色的性格、日常互動與真實故事為靈感，創作了全新原創知識產權(IP)品牌「Panda Friends」，成績令人鼓舞，零售收入按年大幅增長。

財務表現同樣令人鼓舞。計及政府本年度向公園提供港幣二億八千萬元的保育及教育補助，公園錄得經營盈餘或息稅折舊攤銷前利潤(EBITDA)四千二百四十萬港元，這除了反映我們的營運能力，亦展現公園在減低對政府資助依賴的情況下，更有能力持續重新投放資源於保育、教育及訪客體驗。

Thriving with Hong Kong

OPC plays an equally vital role as one of the most beloved tourist icons and proven visitor magnets. The giant pandas have become central to our narrative strategy this year and represent a game-changing opportunity to strengthen both the Ocean Park brand and Hong Kong's identity as a premier tourist destination. With our team's concerted efforts, we launched brand new multi-faceted tourism offerings under a giant panda theme. These include retail products, programmes and events that strategically build momentum on panda tourism, thereby enriching Hong Kong's tourism landscape and reinforcing our city's reputation as a world-class tourist destination.

Panda Friends has become a valuable asset supporting Hong Kong's mega-event economy. Together with our established characters Whiskers & Friends, they have maintained a visible presence in the city's major cultural, sports and tourism mega-events. Their joyful participation has amplified the city's festive vibes while promoting conservation awareness among the public.

OPC also partnered with diverse organisations and community groups on giant panda-themed initiatives. These range from signature giant panda-themed decorations to community events that immersed locals and visitors on the appeal of Hong Kong's giant pandas and successfully embodied in the theme 'tourism is everywhere' set out by the government.

與香港一起成長

公園同樣在旅遊業方面扮演重要角色，是本港最受歡迎的旅遊地標之一，持續吸引旅客到訪。年內，我們把大熊貓作為內容策略規劃的核心，推廣和強化海洋公園的形象，以及香港作為優質旅遊目的地的定位。憑藉團隊的共同努力，我們以大熊貓為主題，推出多元化的全新旅遊產品與體驗，包括零售商品、課程及活動，策略性地為熊貓旅遊注入動力，豐富香港旅遊資源，並加強本港作為世界級旅遊城市的美譽。

「Panda Friends」已成為支持香港「盛事經濟」的重要成員，聯同我們現有的吉祥物「威威與好友」，在城中多項大型文化、體育及旅遊盛事中亮相。他們的參與不但提升城中的節慶氣氛，亦向公眾推廣保育意識。

公園亦與不同機構及社區團體合作推行大熊貓主題項目，從大型大熊貓裝飾到社區活動，讓市民與旅客深切體會香港大熊貓的魅力，並成功體現政府提出的「無處不旅遊」倡議。

Besides giant pandas, OPC also launched various visitor programmes and academic research aimed at allowing our visitors to appreciate local natural landscape and biodiversity while strengthening our advocacy for eco-tourism.

OPC continues to intensify international market outreach efforts through promoting Ocean Park in key markets via physical presence and digital engagement. In line with the government's strategic focus on attracting visitors from the Middle East and ASEAN countries, we have established ourselves as a Muslim-friendly tourist destination. Recently, we enhanced Ocean Park's prayer room with new equipment and expanded our Halal dining options. This commitment to inclusivity earned OPC the CrescentRating Gold accreditation in November 2024, further solidifying the recognition of Hong Kong as the 'Most Promising Muslim-friendly Destination of the Year'.

大熊貓以外，公園亦推出多項訪客活動及進行學術研究，讓訪客欣賞本地自然景觀與生物多樣性，同時突出我們對生態旅遊的倡議。

公園繼續加強國際市場推廣，通過實體推廣及數碼互動在重點市場宣傳。配合政府策略重點吸引中東及東盟旅客，我們已令公園成為穆斯林友善旅遊目的地。近期，公園為祈禱室增添了新設備，並擴闊清真認證餐飲選擇。藉此共融承諾，公園於二零二四年十一月獲「新月評等」頒授黃金級評級，進一步鞏固香港獲評為「年度最具潛力的穆斯林友善旅遊目的地」的認證。

Marking nearly half a century of history

The past year has been a testament to OPC's unwavering dedication to our mission, marked by breakthroughs in conservation, education and visitor engagement. Looking forward, we are energised by the momentum generated and the opportunities ahead of us.

Besides anticipating continued growth in visitor numbers and revenue, we are confident that our tireless efforts to increase Ocean Park's attractiveness while staying committed to conservation and education at the core will bear fruit.

Visitors can look forward to enhanced experiences at Ocean Park. To celebrate Ocean Park's 50th anniversary in 2027, we will launch several new facilities in the near future. These include the upgraded Sloth and Friends Studio expected to be completed by the end of 2025, a new reptile facility anticipated to open in the second half of 2026, and the highly anticipated expansion of the giant panda habitat, targeted for launch in 2027.

At the same time, our new Adventure Zone, scheduled to open in 2028, will blend thrilling adventures with conservation and education elements. Combined with Ocean Park's other facilities and two hotels, it is set to elevate the entire resort and leisure experience, enhancing not only Ocean Park's appeal but also Hong Kong's position as a premier travel destination.

We will continue to innovate, advocate environmental responsibility, and connect people with nature through unique immersive experiences that foster a lifelong appreciation for our planet. Ocean Park is more than a destination. It is a catalyst for positive change, and I invite everyone to join us on this journey.

Paulo Pong Kin-yee, BBS, JP
Chairman of the Board of Ocean Park Corporation

邁向近半世紀的里程

過去一年，公園對使命的堅定承諾有目共睹，在保育、教育及訪客互動方面取得突破。展望未來，我們將乘著這股動能前行，爭取前方機遇。

除了預期入場人次及收入踏上升軌，我們亦會努力不懈提升海洋公園的吸引力，有信心堅守以保育與教育為核心，定必帶來成果。

訪客可期待海洋公園帶來更豐富的體驗。為迎接二零二七年海洋公園五十周年，我們將於不久將來推出多項新設施，包括預計於二零二五年底完成的「樹懶與好友」展館升級工程；預計於二零二六年下半年開放的新爬行動物館；以及備受期待、目標於二零二七年啟用的大熊貓棲息地擴建計劃。

同時，我們的全新歷險主題區預計於二零二八年開放，將刺激探險元素與保育及教育內容融為一體。配合海洋公園其他設施及兩家酒店，將全面提升度假及休閒體驗，不僅增強海洋公園的吸引力，亦進一步提升香港作為首選旅遊目的地的地位。

我們將繼續創新，倡議環境責任，並通過獨特的體驗連繫人與自然，培養終生珍惜地球的情懷。海洋公園不只是一個旅遊目的地，更是推動正面改變的催化力量；誠邀各位與我們同行，共赴這段旅程。

龐建貽，BBS，JP
海洋公園公司董事局主席

CHIEF EXECUTIVE'S STATEMENT

行政總裁報告

NAVIGATING GROWTH BUILDING MOMENTUM

穩步發展 再創新猷

Financial year 2024-2025 stands as a testament to Ocean Park Corporation (OPC)'s agility and unwavering commitment to conservation and education. It has been a period of progress, resilience and renewed purpose, firmly rooted in the development strategy set out in January 2021. As we reflect on the past 12 months, it is clear that our recalibrated vision and mission statements have provided a powerful compass, guiding our growth as a world-class conservation and education hub. We are dedicated to fostering environmental stewardship through fun, meaningful leisure and adventure experiences, all while ensuring that our commercial success directly fuels our vital conservation and education work.

在二零二四至二零二五財政年度，海洋公園公司（公園）靈活多變，展現出對保育與教育的堅定承諾。建基於二零二一年一月制定的發展策略，我們今年持續進步，發揮強大韌性，亦重新確立使命定位。重塑的願景和使命在過去十二個月引導我們繼續發展，推動海洋公園蛻變為世界級保育及教育的中心。我們致力透過有趣而有意義的休閒與歷險體驗，培育大眾對保護環境的責任感，同時確保營運收益有效支持我們推行保育及教育工作。

In a dynamic and ever-evolving market landscape, OPC has not merely adapted but defined its own niche. Our strategic initiatives have been steadily yielding business performance that underscores the effectiveness of our integrated approach. As a significant draw for visitors and a key contributor to our diverse revenue channels, the giant pandas reinforce our conviction in the success of our strategic evolution. We believe that by creating a world where people take action to conserve the environment and grow positively with nature, we are not only fulfilling our purpose but also building a sustainable future for Hong Kong.

A trajectory of sustained growth across business areas

The past financial year marked OPC's fourth consecutive year of growth in both visitor numbers and revenue. This sustained upward trajectory is a powerful indicator of our development strategy and the well-received unique giant panda-related offerings.

In line with the government's approach to attract visitors from around the region and globally, OPC also dedicated our efforts in this direction and actively pursued new tourist markets. These attempts delivered fruitfully as our combined visitor numbers for Ocean Park and Water World rose by an impressive 10% year-on-year, reaching 3.46 million. This surge not only reflects the enhanced visitor appeal, engaging them with the Park's diverse experiences from various perspectives and approaches, but also reinforces our position as a world-class conservation and education hub.

在瞬息萬變的市場環境中，公園不僅迅速適應，更展現其獨特性。我們的策略和措施漸見成效，業務表現逐步提升，印證了整套發展方針的成效。作為吸引訪客的重點核心，以及支撐著公園的多元收入來源，大熊貓進一步鞏固了我們對策略轉型成功的信心。我們深信，透過創建一個人人積極實踐環境保育，並與大自然一起茁壯成長的世界，我們不僅履行了自身使命，亦為建設一個可持續未來的香港出一分力。

各個業務範疇成績重踏升軌

過去一個財政年度，公園在訪客人次和收入兩方面，連續第四年錄得增長。業務持續改善，體現我們的發展策略奏效，以及市場對獨特的大熊貓主題體驗反應熱烈。

配合政府吸引區內和海外旅客的策略，公園亦積極投入，大力開拓新興旅遊市場。相關努力成果豐碩——海洋公園與水上樂園合計訪客人次按年顯著增加百分之十，達三百四十六萬人次。這增長不僅反映園區對訪客的吸引力持續提升，讓訪客以不同角度和方式投入公園的多元體驗，亦進一步鞏固我們作為世界級保育及教育中心的定位。

Total attendance of Ocean Park and Water World
海洋公園和水上樂園總入場人次

Our non-local visitor numbers saw a robust 12% increase, outpacing the city's overall tourist arrivals during the same period. This growth was particularly strong from key international markets, with visitors from the United States surging by 113%, Australia by 103%, and India by 91%. These figures underscore the effectiveness of our targeted international outreach.

Financially, OPC delivered a strong performance, with total revenue increasing by 9% year-on-year, reaching HK\$1,288.1 million. The operating surplus that we have been able to achieve at OPC stands as a testament to the effectiveness of our prudent financial and business strategies. Maintaining a financially healthy operation is dependent on a range of stakeholders and while Ocean Park's revenue generation took on a steady growth trend, we also sought out donations and sponsorships from our partners to ensure stability. Following the same approach, we have also been able to significantly reduce the operating deficits at Water World while effectively controlling costs and expenditures.

期內，我們的非本地訪客人次按年錄得百分之十二的增長，增幅超越同期本港整體入境旅客人次。其中，主要國際市場的增長尤其突出：美國訪客增加百分之一百一十三、澳洲訪客增加百分之一百零三、印度訪客亦上升百分之九十一，這些數據反映我們針對性地向國際市場推廣的成效。

財務方面，公園業績向好，總收入按年增加百分之九，增至港幣十二億八千八百一十萬元；公園更實現經營盈餘，反映公園審慎理財及有效的業務發展策略。主園區收入穩步增長，實現營運財務健康，有賴各持份者的支持；此外，我們亦積極爭取合作夥伴捐款與贊助，以確保營運穩定。這個模式亦讓我們得以有效控制成本及開支，大幅收窄水上樂園的經營虧損。

Key drivers

In-park spending, encompassing pay-as-you-go activities and educational opportunities, surged by a remarkable 35% year-to-year to HK\$110.6 million. This highlights the success of our ongoing efforts to enhance the visitor experience, delivering multiple immersive, value-added offerings and resonating strongly with the public.

Merchandise revenue also jumped 20% increase year-on-year to HK\$172.5 million, reflecting the popularity of our themed products as well as our intellectual property among visitors.

These revenue milestones translated into ongoing improvement in our financial position. OPC proudly recorded a surplus from operations or earnings before interest, taxes, depreciation, and amortization (EBITDA) of HK\$42.4 million, compared to the HK\$17.2 million operating deficit just one year ago, demonstrating solid progress in our business performance.

關鍵驅動元素

園內消費，包括自選付費活動及體驗和教育活動，按年大幅增加百分之三十五至港幣一億一千零六十萬元，顯示我們不斷優化訪客體驗，帶來多個沉浸式增值項目，取得成效。

商品銷售收入亦按年跳升兩成至港幣一億七千二百五十萬元，反映主題產品及自家知識產權品牌深受訪客歡迎。

隨著收入增加，帶動財務狀況繼續改善。公園錄得經營盈餘或息稅折舊攤銷前利潤(EBITDA)港幣四千二百四十萬元，相較上一財政年度之經營虧損港幣一千七百二十萬元大幅增長，營運穩步轉好。

Revenue growth
收入增長

Sponsorship and donation funding
贊助及捐款

Surplus from operations of OPC
海洋公園公司經營盈餘

2024-2025
HK\$42,400,000

2023-2024
-HK\$17,200,000

Our judicious cash flow management has ensured a healthy financial position, and we strategically directed this towards conservation and education expenditure, reinforcing our core mission. Our operating expenditure on conservation and education increased by 8% year-on-year to HK\$471.6 million, which accounted for 31% of total operating costs, mirroring our commitment to the causes. Visitor interaction and experience were further strengthened by associated facility upgrades and enhanced public engagement, particularly in light of the addition of four giant pandas to our animal family.

Conservation and education expenses 保育及教育開支

2024–2025

\$471,600,000

2023–2024

\$437,600,000

(Including the Government's conservation and education subvention of \$280 million)
(包括政府2.8億元保育及教育補助)

We are deeply grateful for the continued provision of a time-limited subvention capped at HK\$280 million per year from the HKSAR Government, supporting our vital conservation and education work. This invaluable support, coupled with a 49% increase in sponsorship and donation funding garnered from generous sponsors and donors, totalling HK\$52.2 million, has supported the Park in driving more conservation, education and festive events.

The arrival of four new giant pandas — Jia Jia, De De, An An, and Ke Ke — has been a powerful catalyst, amplifying OPC's ability to deliver on its conservation and education mission. Giant pandas have not only captivated the public but have also created new opportunities for community engagement, experiential activities and themed offerings, further expanding Ocean Park's audience reach and social engagement.

我們透過審慎的現金流管理，確保財務狀況穩健，並讓我們能策略性地投放資源，支持保育及教育支出，從而強化核心使命。本年度保育及教育相關營運支出按年增加百分之八，達港幣四億七千一百六十萬元，佔總營運成本百分之三十一，體現我們對相關領域的承擔。特別是在大熊貓家族增添四位新成員之際，我們一舉提升設施及加強公眾參與，進一步加強訪客互動和體驗。

我們衷心感謝香港特別行政區政府繼續提供每年上限為港幣二億八千萬元之限時保育及教育補助，加上來自熱心贊助商及捐款者的資助按年上升百分之四十九至港幣五千二百二十萬元，推動公園籌辦更多保育、教育及節慶活動。

四隻新大熊貓加加、得得、安安和可可的加入，為公園發展注入全新動力，進一步推動公園在實踐保育與教育方面的使命。大熊貓不但吸引了全城目光，更有效加強社區互動，並讓我們藉此提供更多創新體驗及主題活動，大大擴展海洋公園的受眾層面及社會接觸。

The growing affection for the giant pandas was matched by extensive coverage and engagement across traditional and digital media. Through comprehensive features in television, print, and online outlets — complemented by viral social media moments and collaborations with influencers — the giant pandas captivated audiences locally and internationally. Supported by immersive in-park experiences, livestreams of the giant pandas showcasing their endearing moments, and exclusive behind-the-scenes stories, this integrated outreach created an unprecedented level of public connection, amplifying the reach and resonance of both the pandas and Ocean Park's mission.

This was further augmented through partnerships with the Culture, Sports and Tourism Bureau (CSTB) and the Hong Kong Tourism Board (HKTB) where we created touch points for in-person interactions across the city. In addition, Hong Kong locals and tourists alike found their new favourite in our newest Ocean Park intellectual property (IP), Panda Friends, and related merchandise, as well as giant panda-themed in-park experiences and food and beverage offerings, driving sales and revenue.

大熊貓的魅力同時透過多元媒體渠道廣泛傳播，包括電視、印刷以及網上平台的專題報道，配合社交媒體熱搜及與內容創作者的合作，令牠們在本地及國際社會贏盡關注；結合園內沉浸式互動體驗、即時直播可愛日常及獨家幕後故事，成功建立前所未有的公眾連繫，進一步加深保育和教育的影響力和與市民的共鳴。

我們亦與文化體育及旅遊局，以及香港旅遊發展局合作，於全港設立現場互動體驗區，推廣海洋公園。海洋公園的自家知識產權品牌「Panda Friends」及相關商品，以及大熊貓主題的體驗活動及餐飲，深受港人及旅客歡迎，成功帶動銷售及收入增長。

Visitor recognition and professional accreditations

While establishing pathways to increase visitor attendance to the Park is an important function, we also pay close attention to curating the visitor experience. We aim to create an environment that visitors would like to keep revisiting because of the unique attractions and encounters they have had. As a testament to our efforts in this area through the years, the visitor satisfaction level for both Ocean Park and Water World has reached up to 90%, especially the overall environment and friendliness of staff, both of which received significantly high satisfaction ratings.

訪客嘉許及專業認證

拓展訪客量固然是公園的重要工作，但我們亦致力創造更優質的訪客體驗，憑藉獨特景點與節目，打造讓訪客樂於重臨的氛圍。多年來，我們在這方面的努力成效顯著：海洋公園及水上樂園的訪客滿意度均高達九成，尤其在園區整體環境與員工服務態度方面的滿意度評分更為突出。

In a resounding affirmation of OPC's ability to care for animals using the highest international standards, the esteemed Association of Zoos and Aquariums (AZA), a globally recognised authority for setting benchmarks in animal care and conservation, reaffirmed our accreditation with a renewed five-year term, marking our fifth consecutive accreditation, effective from March 2024 through March 2029.

Further demonstrating our commitment to excellence, our Global Humane Certification, and our accreditation with the Alliance of Marine Mammal Parks and Aquariums (AMMPA) have both been extended until 2027.

These achievements underscore our rigorous, science-driven approach to animal husbandry, veterinary care, impactful conservation programmes and inspiring educational outreach. They also solidify Ocean Park's standing among the world's premier zoological institutions.

公園在動物護理方面一向達到國際最高標準，獲致力於推動動物護理及保育的全球權威組織「動物園及水族館協會」，連續第五次頒發五年期認證，有效期由二零二四年三月至二零二九年三月，再次肯定我們在動物護理方面的能力。

我們對卓越標準的堅持再獲肯定，「人道保育計劃」及「水生哺乳動物公園及水族館聯盟」認證均已延續至二零二七年。

這些成就佐證我們在動物護理、獸醫護理、高效保育項目及創意教育推廣方面，始終秉持以科學為本、嚴謹務實的方針，進一步鞏固了海洋公園在全球頂尖動物園及水族館領域的地位。

Charting a resilient and purpose-driven future

As we look ahead, OPC remains steadfast in its commitment to cautiously balancing costs and benefits, adjusting operation strategies, and diversifying visitor experiences based on market trends. The integration of strong conservation and education messages into all our offerings, particularly those related to our beloved giant pandas, will continue to deepen public support for our mission.

Building on our commitment to amplify conservation and education efforts, Ocean Park established its Sustainability Institute, alongside hosting various industry events. This concerted approach is designed to significantly broaden the impact we can create through conservation and education.

Concurrently, our robust corporate social responsibility framework centres on engaging the local community, particularly those in need, including underserved families, children with medical conditions, and individuals with special educational needs. Our clear objective is to leverage Ocean Park's unique expertise and resources to actively promote social inclusion and extend our educational outreach directly to these vulnerable segments of society.

秉承使命初心 引領穩健發展

展望未來，公園將繼續秉持審慎平衡成本與效益的原則，緊貼市場趨勢調整營運策略，豐富訪客體驗。我們會將保育與教育理念深度融入各項服務之中，尤其透過大眾喜愛的大熊貓相關項目，進一步加深公眾對園區使命的支持。

為擴大保育及教育工作的影響力，海洋公園成立了「可持續發展中心」，並舉辦多項業界活動。透過協同合作，進一步擴展我們在保育與教育領域的貢獻。

與此同時，我們擁有完備的企業社會責任框架，專注服務本地社群，特別關注資源不足社群——包括基層家庭、患病兒童及有特殊教育需要人士。我們的核心目標是發揮海洋公園獨特的專業優勢與資源，積極推動社會共融，將教育服務擴展至有需要的社群。

We continued to administer various ticketing concessions in the financial year, reaching 695,000 beneficiaries with an equivalent social value of more than HK\$298 million, creating memorable experiences for visitors while learning about conservation.

Driven by prudent financial management strategies and a renewed focus on our core mission, the solid performance in financial year 2024–2025 established a strong foundation for OPC's future development. We are confident that OPC will continue to be a strong contributor to Hong Kong's economy, generating direct and indirect added value through both visitor spending, and diverse job opportunity creation that support the development of the tourism, conservation, education, retail, leisure and entertainment industries. Aligning our efforts with the government's policy framework, we strive to help foster a vibrant economy.

OPC stands ready to play a pivotal role in showcasing Hong Kong's unique charm and contributing to its prosperity. We are dedicated to a resilient, purpose-driven, and sustainable future, where our impact extends far beyond our gates.

我們亦繼續於財政年度內實施不同的門票優惠，惠及六十九萬五千人，門票等值超過港幣二億九千八百萬元，為訪客締造難忘回憶，同時學習保育訊息。

受惠於審慎的財務管理策略及重新聚焦核心使命，公園二零二四至二零二五財政年度的穩實表現為未來發展奠下穩固基礎。我們深信，公園將繼續為香港經濟作出重要貢獻，通過訪客消費為經濟帶來直接及間接增加值，並提供多元化工作職位，支持旅遊、保育、教育、零售、休閒及娛樂等行業發展，結合政府的政策規劃，為整體經濟增添活力。

公園將繼續發揮關鍵作用，展現香港的獨特魅力，並為社會繁榮作出貢獻。我們矢志締造一個具韌性、忠於使命、可持續的未來，讓園區的影響力跨越地域，惠及更廣闊的社會層面。

CONSERVATION & ANIMAL CARE

保育工作及動物護理

LEADING THE WAY IN CONSERVATION AND ANIMAL CARE 走在保育工作及動物護理的最前線

At Ocean Park Corporation (OPC), our commitment to rescuing, breeding and caring for endangered and threatened species is a key part of how we deliver on our mission. Through our world-class animal care, science-based research and initiatives, we have been at the vanguard in protecting many high conservation-value species.

In financial year 2024–2025, our conservation work reached new heights with the birth of Jia Jia and De De, the first-ever giant panda cubs born in Hong Kong, followed by the arrival of An An and Ke Ke, the new giant pandas gifted by the Central Government. Along with new members to the Sichuan golden snub-nosed monkey, penguins and turtle families and more, these milestones showcased our expertise in safeguarding precious species.

海洋公園公司(公園)一向以救援、繁殖及照顧瀕危及受威脅物種為核心使命。憑藉世界級的動物護理、科研及各項計劃，我們一直站在物種保育的最前線，全力守護眾多極具保育價值的物種。

在二零二四至二零二五財政年度，我們的保育工作迎來重大突破——香港首對大熊貓雙胞胎加加與得得順利誕生，其後中央政府亦贈送大熊貓新成員安安與可可，而川金絲猴、企鵝及龜類族群亦相繼迎來新成員，充分體現我們在守護珍稀物種方面的專業和成果。

Milestone in Hong Kong's conservation history

Thanks to the support of the China Conservation and Research Centre for the Giant Panda (CCRCGP), OPC's animal husbandry and veterinary teams helped giant panda Ying Ying give birth to two adorable giant panda cubs, Jia Jia and De De, on 15 August 2024, a historic first for Hong Kong.

The event marked a major milestone in OPC's conservation journey, as Ying Ying became the oldest giant panda to give birth for the first time on record, at just one day shy of her 19th birthday (equivalent to 57 years old in human years)! This truly rare and remarkable occurrence is the culmination of over a decade's efforts by OPC's breeding programme for giant pandas, following numerous attempts at natural mating and artificial insemination since 2010.

After giving birth, Ying Ying was initially extremely fatigued and showed little appetite. To help her stay hydrated, the care team placed apple slices in her water and prepared tiny bamboo leaf rolls to encourage her to eat. Through around the clock care and meticulous nutritional support, she gradually recovered over three months and transitioned smoothly into her role as a mother. Ying Ying has adapted remarkably well, showing a strong maternal instinct and attentively caring for her cubs. Le Le, meanwhile, remained his usual relaxed and carefree self, as male giant pandas take no part in parenting.

香港保育史上的里程碑

在中國大熊貓保護研究中心(熊貓中心)的鼎力支持下，公園的動物護理及獸醫團隊協助大熊貓盈盈於二零二四年八月十五日順利誕下兩個可愛的大熊貓寶寶加加與得得，創下香港歷史先河。

這項創舉標誌著海洋公園保育工作的重要里程碑——盈盈在十九歲生日的前一天(相當於人類五十七歲)，成為有紀錄以來最年長初次產子大熊貓！團隊自二零一零年起先後多次嘗試為大熊貓進行自然交配及人工授精，最終迎來振奮人心的成果。這份罕有而意義非凡的成就，正是海洋公園大熊貓繁殖計劃逾十年深耕的成果。

盈盈產後初期極度疲憊，食慾不振。護理團隊為協助牠補充水分，特意在水中放置蘋果片，並製作細小的竹葉卷誘導進食。經過全天候的貼身照護與精心設計的膳食安排，盈盈在三個月內逐漸恢復體力，並順利適應了母親的角色。牠展現出強烈的母性本能，細心照料兩個寶寶。與此同時，由於雄性大熊貓不參與育幼，樂樂依然保持著牠一貫怡然自得的模樣。

Jia Jia and De De began life tiny and fragile, each weighing just over 100 grams at birth. Under 24/7 intensive care jointly provided by experts from the CCRCGP and OPC's animal care team, their every move and sound were closely monitored. Caretakers rotated the cubs so that Ying Ying could focus on one at a time, while the team nurtured the other.

Thanks to this dedicated care, the twins grew steadily and transformed from delicate pink newborns into healthy cubs now in their distinctive black and white coats, weighing over 35kg each. The playful and curious siblings are often seen tumbling together, a joyful testament to their healthy development.

The birth of the cubs marks the third giant panda world record set by OPC, along with the late Jia Jia being at one point the oldest giant panda living under human care, and the late An An, prior to his death, being the world's longest-living male giant panda under human care.

Just about a month after Ying Ying's record-setting birth of the cubs, the two new giant pandas gifted to Hong Kong by the Central Government, An An and Ke Ke, arrived on 26 September 2024. OPC's animal care team went straight to work in helping the newly arrived duo adapt to their new environment, climate and diet, ensuring their smooth integration into Hong Kong life through meticulous monitoring and personalised care.

The tender loving care showered on the pair helped An An and Ke Ke adjust amazingly well to their new home, giving a great reason to celebrate their 6th birthdays on 28 and 26 June 2025, respectively, their first in Hong Kong!

加加和得得誕生之初幼小而脆弱，每隻體重僅逾一百克。在熊貓中心專家及海洋公園動物護理團隊的二十四小時悉心照護下，牠們的一舉一動都受到密切監測。護理人員會輪流把雙胞胎寶寶交予盈盈照顧，讓她專心餵哺其中一個寶寶，另一個則由團隊負責照料。

在眾人無微不至的照護下，這對龍鳳胎穩步成長，從粉紅色初生幼體茁壯成長成健康活潑的寶寶，並換上大熊貓黑白皮毛，如今體重經已超過三十五公斤。這對活潑、充滿好奇心的姊弟經常玩耍嬉鬧，堪為牠們健康成長的愉悅見證。

這對雙胞胎的誕生，亦是海洋公園締造的第三項大熊貓全球紀錄——此前，已故大熊貓佳佳曾是人類照顧下全球最長壽的大熊貓，而已故大熊貓安安則是人類照顧下全球最長壽的雄性大熊貓。

在盈盈產後約一個月，中央政府贈港的兩隻大熊貓安安和可可，於二零二四年九月二十六日抵港。海洋公園動物護理團隊迅即投入工作，協助這對新成員適應新環境、氣候與飲食，透過縝密監測與度身訂造的護理工作，確保牠們順利融入香港的生活。

憑藉團隊細緻入微的照料，安安和可可迅速適應新環境，並於二零二五年六月二十八日及二十六日分別度過六歲生日——這也是牠們在香港的第一個生日，可謂一大喜訊！

Growth journey of giant panda cubs 大熊貓寶寶成長印記

New born 初生

At two weeks 兩星期

At two months 兩個月

At four months 四個月

At six months 六個月

From delicate pink newborns to strong, black and white cubs, Jia Jia and De De's remarkable growth journey is lovingly supported by dedicated caretakers.

從嬌嫩粉紅的初生寶寶，到健壯活潑的黑白寶寶——加加與得得的成長之旅，全賴護理團隊的悉心照顧。

The care team provided Ying Ying with a cub-scented doll before reintroducing her cubs, helping her get familiarised with them. Once Ying Ying is familiarised with the cubs' scent, the twin cubs were introduced to her in rotation.

護理團隊特別為盈盈準備了沾上寶寶氣味的布偶，讓她熟悉雙胞胎寶寶，當盈盈熟悉了寶寶的氣味後，護理團隊便開始讓盈盈嘗試輪流照顧兩個寶寶。

Caretakers assisted the cubs in defecating through gentle stimulation, mimicking a mother giant panda's natural licking behaviour, as newborns lack the muscle control and nervous development to do so on their own.

由於新生寶寶的肌肉控制能力尚未完全發展，神經系統亦未成熟，無法自行排便。護理人員會輕柔地刺激牠們，模擬熊貓媽媽自然的舔舐行為，協助寶寶排便。

Caretakers marked De De's back with small purple food colouring to tell the cubs apart and ensure precise observation of their growth.

護理團隊在得得背部加上紫色可食用色素，以便區分兩個寶寶及精確監測牠們的成長狀況。

Behind the scenes of giant panda care

Ever wondered what it takes to care for a giant panda? At OPC, it's a science of precision, patience, and trust. With six giant pandas at the Park, the team has stepped into a new chapter of conservation excellence. Through routine husbandry training with positive reinforcement, many procedures — from blood sampling to ultrasound scans — can be performed without anaesthesia, keeping the giant pandas calm, stress-free, and safe. Every two to three years, the team also carries out comprehensive health checks, including CT scans, to ensure the giant pandas stay in top form.

Positive reinforcement training builds trust, letting caretakers conduct health checks with full voluntary animal cooperation.

正向增強訓練增加彼此信任，讓護理員得以在大熊貓自願配合的前提下，展開各項健康檢查工作。

The animal care team also collects urine samples for laboratory analysis, allowing close monitoring of the giant pandas' key health indicators and oestrous cycles during the breeding season.

護理團隊亦會收集尿液樣本進行實驗室分析，以便密切監測大熊貓的重要健康指標，並在繁殖季節跟進其發情周期。

When required, more advanced medical examinations such as ultrasound, X-rays or CT scans are conducted by veterinarians to ensure each giant panda's continued health and well-being.

有需要時，獸醫會為大熊貓進行超聲波、X光或電腦斷層掃描等更先進的醫學檢查，確保大熊貓保持健康狀態。

大熊貓護理的幕後故事

大家可曾想過大熊貓護理工作是怎樣的？對公園而言，大熊貓護理是一門講求精準的科學，需要極大耐心和對彼此的信任。隨著園內大熊貓數量增至六隻，團隊迎來卓越保育之路的新篇章。透過正面獎勵，園內的大熊貓在接受抽血和超聲波掃描等程序時，皆無需麻醉，讓牠們在保持平靜、無壓力的狀態下接受護理。團隊亦會每兩至三年進行全面的健康檢查，包括電腦斷層掃描，確保大熊貓保持健康。

Every day, caretakers check each giant panda's weight, temperature, and sometimes blood pressure, while inspecting their paws, claws, fur and teeth, and observing behaviour. Any irregularities are quickly followed up with a thorough veterinary check.

護理人員每日為每隻大熊貓量度體重、監測體溫，適時檢測血壓，同時仔細檢查牠們的手掌、爪甲、皮毛及牙齒狀況，並密切觀察行為表現。一旦發現任何異常，會立即安排獸醫進行全面檢查。

Beyond giant pandas: breeding success across species

While the birth of the giant panda twins marked a historic milestone, OPC's conservation efforts extend far beyond giant pandas. Ocean Park continues to play a vital role in safeguarding species of high conservation value, demonstrating the depth and diversity of our commitment to global biodiversity.

A Sichuan golden snub-nosed monkey joins the family

In January 2025, a female Sichuan golden snub-nosed monkey, Beanie, was born to parents Le Le and Qi Qi — the fourth born in Hong Kong and the first female. The Sichuan golden snub-nosed monkey is listed as Endangered on the International Union for Conservation of Nature (IUCN) Red List of Threatened Species. The Park had earlier welcomed three male Sichuan golden snub-nosed monkeys, including Loki in 2017, Little Peanut in 2019 and Yellow Bean in 2021. The siblings are all thriving at Chengdu Zoo now, where they contribute to the national breeding programme to preserve the species' genetic diversity.

熊貓以外的多個物種繁殖

大熊貓雙胞胎的誕生，標誌本港保育歷史的重要里程碑，但海洋公園的保育工作遠遠不止於此。海洋公園在守護極具保育價值的物種中扮演關鍵角色，用行動體現我們對保護全球生物多樣性的承諾。

川金絲猴家族再添成員

二零二五年一月，川金絲猴樂樂與其順利誕下雌性寶寶小紅豆——香港第四隻成功繁殖的川金絲猴，也是首隻雌性寶寶。川金絲猴被列入國際自然保護聯盟（IUCN）《瀕危物種紅色名錄》的「瀕危」物種。在此以前，公園已先後迎來三隻雄性川金絲猴寶寶，分別是二零一七年出生的樂奇、二零一九年的小花生及二零二一年的小黃豆。小紅豆的哥哥目前均在成都動物園健康成長，並參與國家級繁殖計劃，為保護生物多樣性出一分力。

Penguins galore!

During the 2024-2025 breeding season, we successfully bred 23 gentoo penguins, one southern rockhopper penguin and three king penguins. This achievement highlights our commitment to penguin conservation and breeding efforts.

企鵝寶寶集結！

在二零二四至二零二五年的繁殖季節中，我們成功繁殖了二十三隻巴布亞企鵝、一隻南跳岩企鵝和三隻國王企鵝，彰顯了我們對企鵝保育和繁殖工作的承諾。

A Growing Happy Family

逐漸壯大的家族群

13

animal breeding programmes, including: giant panda, Sichuan golden snub-nosed monkey, horseshoe crab, yellow seahorse, shark and blue-crowned laughingthrush, etc.

個動物繁殖項目，包括：大熊貓、川金絲猴、馬蹄蟹、黃海馬、鯊魚及靛冠噪鵲等。

Protecting a living fossil

Dating back 475 million years, horseshoe crabs are true living fossils — yet now face threats from habitat loss, pollution and overexploitation. Since 2009, OPC and Ocean Park Conservation Foundation, Hong Kong (OPCFHK), in partnership with the City University of Hong Kong, have led the Juvenile Horseshoe Crab School Rearing Programme, engaging over 7,000 students from 370 schools in rearing, monitoring and releasing juveniles into the wild.

The initiative has reached over 340,000 people and released more than 2,000 horseshoe crabs, inspiring young participation in conservation.

守護活化石

馬蹄蟹的存活歷史可追溯至四億七千五百萬年前，是名副其實的「活化石」，如今卻面臨棲息地消失、環境污染及過度捕撈的多重威脅。自二零零九年起，公園、香港海洋公園保育基金（保育基金）與香港城市大學攜手推行「馬蹄蟹校園保母計劃」，獲得逾三百七十間學校超過七千名學生參與，負責親身照顧、監測並將年幼馬蹄蟹放歸野外。

參與該項計劃的公眾已超過三十四萬人次，累計野放逾二千隻馬蹄蟹，成功喚起青少年參與保育的熱誠。

To enhance field research, OPCFHK also launched a drone and AI based population survey pilot with The Chinese University of Hong Kong and City University of Hong Kong, achieving over 90% accuracy in identifying juvenile horseshoe crabs. This innovation improves efficiency, reduces habitat disturbance and will soon be expanded to other key mudflats across Hong Kong.

Rescues underway: rehabilitating and releasing wildlife

Besides caring for animals in Ocean Park, we also continued to work in partnership with the Agriculture, Fisheries and Conservation Department (AFCD), Hong Kong Customs and Excise Department, and conservation partners, to rescue, rehabilitate and release wildlife back into the wild.

OPC and OPCFHK are at the forefront of wildlife rescues and rehabilitation in Hong Kong. During the financial year, our staff helped rescue and rehabilitate nearly 200 animals of high conservation value.

Animals in good health were safely released into their wild habitats. For those that are permanently injured or too weak to survive on their own, we provide a safe and caring home at Ocean Park, where they serve as animal ambassadors for wildlife conservation through educational initiatives.

野外研究工作與時俱進，保育基金更與香港中文大學及香港城市大學合作，運用全自動無人機系統及人工智能技術，進行馬蹄蟹普查先導計劃。系統對馬蹄蟹幼體的識別精準度已達至九成以上，不僅提升了調查效率，更減少了對馬蹄蟹棲息地的干擾。團隊並計劃將系統引進至更多香港境內的馬蹄蟹棲息泥灘，擴大保育覆蓋範圍。

持續救援：野生物種復康與放歸自然

除了照顧園內動物，我們亦繼續與香港漁農自然護理署（漁護署）、香港海關及保育合作夥伴攜手，進行野生動物的拯救、復康及放歸自然的工作。

公園與保育基金一直處於香港野生動物救援與復康工作的最前線。在本財政年度，團隊拯救及治療了近二百隻具高保育價值的動物。

健康狀況達標的動物會被安全放歸原生棲息地，而永久受傷或因體質虛弱以致無法獨立生存的動物，海洋公園會為牠們提供安全而充滿關愛的家園，讓牠們成為動物大使，現身於不同教育項目，傳遞保育理念。

Our extensive zoological infrastructure, including our animal exhibits, and the horseshoe crab facility and freshwater turtle holding facility at the back-of-house area completed in late 2024 and early 2025 respectively, enable us to care for a wide variety of rescued and confiscated endangered species.

With these new facilities, Ocean Park also showcases its conservation breeding achievements and expands community education initiatives, furthering the mission to inspire conservation action through education.

園內完善的動物護理設施，包括各個動物展館，以及分別於二零二四年底及二零二五年初相繼啟用的馬蹄蟹設施以及位於後勤區域的淡水龜暫養設施，讓我們得以照顧各類獲救或被有關當局充公的瀕危物種。

通過這些新設施，海洋公園有效展示保育和繁殖的成果，擴展社區教育工作，啟發社會關注並積極參與各種保育行動。

Responding to cetacean strandings

Working with AFCD, Hong Kong Customs and other conservation partners, OPC and OPCFHK's Cetacean Stranding Response Team join forces with OPC's veterinary and marine mammal teams to assist in the investigation of cetacean stranding cases in Hong Kong waters through the Marine Life Stranding Response team, attending to 30 stranding cases this financial year, and conducting necropsies on many of the animals.

Dedicated to the protection of these precious creatures, the team collected samples to learn important information, including the cetaceans' age, sex, pathogens and causes of death, to better understand how to conserve these animals and their habitats.

應對鯨豚擱淺

海洋公園及保育基金組成的鯨豚擱淺應變小組，聯同漁護署、香港海關及其他保育夥伴，調動公園的獸醫及海洋哺乳類動物團隊，在香港水域調查鯨豚擱淺個案。在本財政年度，團隊共處理了三宗擱淺個案，並就多宗案例進行了動物屍體解剖。

為全力保護這些珍貴的海洋生物，團隊透過收集樣本，獲取了包括鯨豚年齡、性別、病原體及死亡原因等關鍵資料。有關數據有助我們了解如何保育相關物種及其棲息地，從而制訂更有效的保育策略，守護鯨豚及其棲息地。

Stranded Cetacean Incidents 處理鯨豚擱淺

Case Type 個案種類	2015	2016	2017	2018	2019	2020	2021	2022	2023	2024

Protecting the habitat

It is not enough just to rescue, we also carry out underwater cleaning and ecological surveys for the AFCD to protect habitats at Sham Wan, Lamma Island. We also collaborated with the AFCD to lead a beach cleanup at Sham Wan, removing approximately 100kg of marine debris to create a safe nesting environment for green turtles.

Prior to the cleanup, the volunteers participated in a briefing session and a guided tour of OPC's rescue facilities. These activities highlighted our ongoing conservation and rescue work, which empower participants to join our efforts and make a positive impact.

Managing the wild monkey population

Even as we promote the conservation of endangered or threatened species, OPC is aware of the importance of managing wild animal population growth where needed, to reduce animal-human conflicts. Since 2009, OPCFHK has been contracted by the AFCD to help manage the local population of wild macaques with the implementation of a contraceptive programme.

保護棲息地

我們的努力不限於救援，海洋公園亦協助漁護署在南丫島深灣清理海洋垃圾和進行生態調查，以保護有關棲息地。我們亦與漁護署合作在深灣進行海灘清理活動，移除約一百公斤的海洋垃圾，為綠海龜創造安全的築巢環境。

在清理活動開始前，出席義工參與了簡報會及公園救援設施的導覽團。這些活動均突顯我們堅持進行保育和救援工作，並鼓勵參與者加入我們的行列，共同為環境作出貢獻。

管理野生猴子族群

在保護瀕危或受威脅物種的同時，公園也意識到於必要時對野生動物種群進行管理，以減少人與動物的衝突。自二零零九年起，保育基金受漁護署委託，為本地野生猴子進行絕育計劃，協助管理族群數量。

In the past financial year, our veterinary and OPCFHK staff members continued to support the AFCD's Wild Monkey Contraception Project, sterilising more than 90 wild monkeys in areas such as Kam Shan, Lion Rock and Shing Mun Country Parks. The programme has successfully reduced the birth rate of wild macaques by more than half.

Advancing conservation through science

Beyond breeding, rescuing and caring for animals, Ocean Park drives conservation forward through scientific research both in-house and in collaboration with leading institutions. Our studies bridge science, animal welfare, education and conservation, generating insights that enhance animal care and inspire public understanding.

Celebrating its 30th anniversary, OPCFHK continues to safeguard Asia's biodiversity through research, capacity building and community education. In the three decades, it has supported over 90 projects on the wild giant panda, with funding exceeding HK\$30 million. A new collaboration with the CCRCGP explores how reintroduced giant pandas adapt to the wild, guiding future release programmes for endangered species.

在過去的財政年度，我們的獸醫團隊和保育基金團隊持續參與漁護署的「猴子絕育計劃」，在金山、獅子山和城門郊野公園等地，為超過九十隻野生猴子進行了絕育，計劃已成功將牠們的出生率降低一半以上。

以科學驅動保育

除了物種繁殖、救援與護理，海洋公園更透過自主研究及與頂尖機構的合作，利用科學推動保育發展。研究範圍涉及科學、動物福祉、教育與保育四大領域，既為優化動物護理方面帶來新啟示，亦有助公眾加深對保育的理解。

成立三十周年，保育基金將繼續透過研究、能力建設，以及社區教育，守護亞洲生物多樣性。三十年間，保育基金已資助超過九十個野生大熊貓相關研究項目，投入資金超過港幣三千萬元。保育基金與熊貓中心更展開全新合作，探索大熊貓放歸自然的適應狀況，為日後瀕危物種放歸計劃提供科學指引。

In Hong Kong, we partner with local universities to advance wildlife research, including a collaboration with The University of Hong Kong on stem cell studies using dolphin blood samples to broaden understanding of marine mammal health and support long term welfare.

Globally, the Park joined the StAR (Stegostoma tigrinum Augmentation and Recovery) project led by Texas A&M University and ReShark, a worldwide coalition restoring zebra shark populations in Indonesia. The study collects growth and life history data to refine recovery strategies and strengthen education efforts through global collaboration.

我們亦與多家本地大學合作，展開野生動物研究，包括與香港大學合作開展鯨豚血液樣本幹細胞研究，以加深對海洋哺乳動物健康的理解，為牠們帶來長遠福祉。

全球方面，我們亦參與了由德州農工大學和ReShark領導的StAR（豹紋鯊復蘇）計劃，協力恢復印尼的豹紋鯊種群。該研究收集了豹紋鯊的成長及生命歷史數據，以制定復蘇策略，並透過全球網絡加強教育工作。

From Lab to Reality — Research that Pushed the Needle in Conservation

科研落地 — 以科學改寫保育的未來

48

ongoing research programmes, covering cetacean, manta ray, red panda, green sea turtle, seal, zebra shark, etc.

個進行中的科研項目，涵蓋：鯨豚、角鰐、小熊猫、綠海龜、海豹及豹紋鯊等多個物種。

Conserving for tomorrow

At OPC, our team champions conservation for the benefit of our world and future generations. Hong Kong's new giant panda cubs helped us capture the public's attention and spread conservation messages to a wider audience. Looking ahead, we will continue to contribute to ex-situ and in-situ conservation through our professional expertise, and promote public awareness about the importance of working together to ensure a healthy planet where both nature and humanity can thrive.

保育為明天

公園堅持以守護地球、惠澤後代為重要使命，積極推動各項保育事業。香港新生的大熊貓寶寶不僅吸引了公眾的廣泛關注，更讓保育理念傳播到更廣泛的受眾。展望未來，我們將繼續憑藉專業優勢，為遷地保育與就地保育貢獻力量，同時持續提升公眾意識，讓更多人明白——唯有攜手合作，才能守護我們的地球，讓人類與自然共存共榮。

Meet the Zoological Operations & Conservation Team

Every animal cared for at Ocean Park reflects the dedication of a multidisciplinary team working tirelessly, day and night, to protect wildlife and the environment. The Zoological Operations & Conservation Division brings together over 250 specialists from six key teams — Zoological Operations, Veterinary, Clinical Laboratory, Environmental Laboratory, Life Support Operations, and Research — united by a shared commitment to animal welfare and ecological stewardship.

Internationally recognised for their expertise and dedication, the team applies their skills and compassion to care for animals, support research, and strengthen conservation efforts beyond the Park's boundaries. Their work reflects Ocean Park's enduring mission to protect nature through science and collaborations.

Conservation strategy and development 動物保育策略及發展

At Ocean Park, our conservation journey is built on science, responsibility, and passion. Adopting a 'One Plan' approach, we integrate ex-situ and in-situ conservation to make a lasting impact on biodiversity. Through collaboration, innovation, and positive reinforcement training, we create a foundation of trust and respect with the animals under our care — reducing stress, ensuring animal welfare excellence, and strengthening the human-animal bond.

Having cared for three generations of giant pandas, I've learnt that conservation is a marathon, not a sprint. It takes patience, partnership, and understanding, and above all, a shared commitment to environmental stewardship. Every success reminds us that protecting one species can spark a movement to protect many. Together with our partners and community, we strive to inspire positive action and nurture a future where people, animals, and nature thrive in harmony.

海洋公園的保育工作以科學、責任與熱誠為基礎。我們採用「一體化保育」理念，結合遷地與就地保育，為生物多樣性帶來持久的影響。透過協作、創新及正向強化訓練，我們與動物建立互信與尊重的關係，減低牠們的壓力，實踐卓越的動物福祉，並深化人與動物的連結。

照顧三代大熊貓的經歷讓我深刻體會，保育是一場長跑，需要耐心、夥伴關係與理解，並以環境守護的共同承擔為核心。每一次成功都提醒我們，保護一個物種能啟發守護更多生命的行動。與夥伴和社區攜手，我們將持續推動正向改變，邁向人、動物與自然和諧共榮的未來。

認識動物及保育團隊

海洋公園裡每一隻健康的動物，背後都凝聚著動物及保育團隊的努力與熱誠。他們來自不同專業，日以繼夜地照顧我們的動物大使。動物及保育部匯聚超過二百五十位專才，涵蓋六大範疇——動物護理、醫療、臨床化驗、環境化驗、維生系統支援及科研團隊——秉持共同信念，推動動物福祉及生態保育。

團隊的專業及工作屢獲國際肯定。他們以知識、經驗與愛心照顧動物、支援科研，並將保育工作延伸至園外，推動更廣泛的生態保護行動。他們的努力體現了海洋公園以科學及協作守護大自然的長遠使命。

Curatorial and stewardship of all species 園內物種管理與保育工作

Animal welfare is the foundation of modern conservation. A well-cared for animal becomes a powerful ambassador, inspiring empathy and action through natural, vibrant behaviours. Each animal in our care is a partner in our mission — their trust, individuality, and vitality embody our purpose and success. After decades in this work, I am constantly reminded that true conservation begins with the well-being of every individual life.

動物福祉是現代保育的基石。被悉心照料的動物能以自然、生動的行為成為最有力的代言人，啟發人們的同理與行動。每一隻被我們照顧的動物，都是這份使命的夥伴——牠們的信任、個性與生命力，體現了我們的初衷與成果。歷經數十年的保育工作，我始終深信，真正的保育始於每一個生命的福祉。

Veterinary excellence and animal welfare 動物醫療和福祉

All our work is animal-centric, focused on providing the highest possible welfare. That means keeping our knowledge, facilities, and practices up to date — investing in people, equipment, and networks to stay ready for every challenge.

It is a rare privilege to work with extraordinary people and animals on meaningful projects. We strive to ensure that everything we do delivers real benefits and lasting purpose.

我們的所有工作皆以動物為本，致力為牠們提供最佳的護理與福祉。這意味著我們必須持續提升知識、設施與操作標準，投資於專業團隊、設備及網絡，以迎接每一項挑戰。

能與公園的人才和動物共同參與有意義的工作，是莫大的榮幸。我們努力確保每一項努力都能帶來切實成果與持久意義。

Senior Animal Care Supervisor
高級動物護理監督

Care for giant pandas and golden monkeys 照顧大熊貓和川金絲猴

The most rewarding part of my work is building mutual trust with the animals. We earn their trust by closely observing their expressions and behaviours, and the satisfaction and joy is irreplaceable. While ensuring their health and well-being, we also promote conservation awareness to the public to safeguard their future.

對我而言，最珍貴的是與動物建立互信關係。透過細心觀察牠們的神情與舉動，從而贏得牠們的信任，那份滿足與喜悅是無可替代的。我們在確保動物健康與福祉的同時，亦向公眾宣揚保育意識，守護牠們的未來。

Care for giant pandas, red pandas and otters 照顧大熊貓、小熊猫和水獺

The most precious moments are seeing the giant pandas' joy as they eat — a simple sight that reminds me my work goes beyond daily care to protecting a truly special species. Each giant panda has its own personality, and through time spent together, I've learnt to understand their emotions and build a bond of trust that makes every day meaningful.

工作中最珍貴的時刻，是看到熊貓開心進食。這看似簡單，卻提醒我工作不僅是日常照料，更肩負守護珍稀物種的重任。每隻熊貓都有獨特的個性，隨着日常相處，我學會讀懂牠們的情緒，並建立起彼此的信任與連結。

Care for giant pandas, red pandas and otters 照顧大熊貓、小熊猫和水獺

Trust is the key that connects humans and animals. Once that bond forms, daily care and every interaction become a moment of enrichment that helps them live with confidence and joy.

互信是連結人與動物的關鍵。當這份連繫建立起來，日常照料和互動都成為牠們健康快樂成長的養分。

Care for penguins 照顧企鵝

The most rewarding part of my work is seeing visitors fall in love with the penguins and understand why they need our help. When someone leaves caring more about the ocean or wanting to protect wildlife because they met our penguins, that's when I know their message has truly reached them.

工作中最令人欣慰的，是看到訪客因為愛上企鵝而明白牠們為何需要我們的幫助。當有人因為與企鵝相遇、聽到牠們的故事，而更加關心海洋、願意守護野生動物時，我就知道牠們的訊息已經真正傳達。

Care for marine mammals 照顧海洋哺乳類動物

Building trust with marine mammals begins with respect, mindfulness, and unconditional love. The deeper we understand them, the better we can support their well-being — and that understanding fosters appreciation that, in turn, inspires stronger conservation and education efforts.

與海洋哺乳類動物建立信任，始於尊重、專注與無條件的愛。我們越深入了解牠們，就越能提供最完善的照顧；這份理解孕育出更深的欣賞，亦進一步激發更強的保育與教育動力。

Care for sea turtles, sharks, rays and marine fish

照顧海龜、鯊魚、魷魚和海洋魚類

Each species has unique needs, so providing tailored care and the right environment is key to keeping them healthy. Their well-being also carries a greater purpose — inspiring people to care, connect with biodiversity, and take part in marine conservation.

每個物種都有不同需要，因此提供度身訂造的照護和合適的生活環境是保持牠們健康的關鍵。牠們的健康與快樂更具深遠意義——能啟發公眾關懷大自然，連結生物多樣性，並參與海洋保育。

Care for horseshoe crabs, sharks, rays and marine fish

照顧馬蹄蟹、鯊魚、魷魚和海洋魚類

Caring for endangered horseshoe crabs has taught me that even overlooked species quietly play vital roles in our world. My work is about making their lives seen and valued, protecting their present and future through dedicated, science-based care. Every rescue, survey, and moment of daily care is an expression of our commitment to their conservation.

照顧瀕危的馬蹄蟹令我明白，即使被忽略的物種，也默默守護着人類與生態。我的工作是讓牠們的生命被看見和珍惜，並以嚴謹的科學照護守護牠們的現在與未來。每一次拯救、研究與日常照料，都是我們對保育努力的堅持與信念。

Care for coral, sharks, rays and marine fish

照顧珊瑚、鯊魚、魷魚和海洋魚類

There is never a dull moment in caring for marine life — connecting with the animals, discovering their unique traits, and maintaining an environment where they can truly thrive. Their vitality and the health of their environment together tell a powerful story of why marine conservation matters.

照顧海洋生物的每一刻都充滿樂趣——與動物互動、探索牠們獨特的特質，並營造一個讓牠們健康成長的環境。牠們的生命力與環境的健康息息相關，這充分說明了海洋保育的重要意義。

Medical care 醫療服務

The greatest advancement that we see in Ocean Park over the years is how we are able to incorporate medical or husbandry training into our animal healthcare programme, not only enabling us to provide a high level of veterinary care but also allowing us to gain so much knowledge of a species which can then be channelled back to conservation projects in the field.

我們近年在海洋公園看到的最大進步是，我們能夠將醫療或護理訓練融入到動物醫療保健計畫中。這不僅讓我們提供高水平的獸醫護理，同時能獲得有關物種的大量知識，從而回饋於野外的保育項目當中。

Medical care 醫療服務

A deep sense of responsibility for animal health and welfare, together with a passion for protecting biodiversity, drives me to ensure every animal thrives under our care. There's no greater fulfilment than seeing them flourish, knowing each effort contributes to a healthier, more balanced world.

對動物健康與福祉的責任感，以及守護生物多樣性的熱誠，驅使我確保每一隻動物都能健康成長。看到牠們茁壯快樂，是對我們努力最有意義的回報，也提醒我這份工作的價值所在。

Conservation science and biodiversity research

保育科學及研究

Modern zoological management goes far beyond managing the animals' diets and physical well-being. Through ex-situ research, we are able to bridge conservation, animal welfare and education in a science-based approach. Studying animal behaviours, cognitive abilities and enrichments, sensory biology — all these have great implications on animal welfare. I'm glad to be a part of Ocean Park where I and the research team could contribute to these aspects, which are where my interest and passion lie.

動物管理範疇早已不只局限於照顧動物飲食及其生理健康。透過遷地研究，我們能以科學為本，將保育、動物福祉與教育緊密連結。從動物行為、認知能力、環境豐容到感知生物學的研究——每項都對動物福祉具有正面幫助。我很高興能夠成為海洋公園的一分子，與研究團隊共同在我所熱愛和深感興趣的領域作出貢獻。

Notes: 備註:

- In-park births included 2 giant pandas, 1 golden snub-nosed monkey, 24 gentoo penguins, 3 king penguins, 1 southern rockhopper penguin, 4 blue-crowned laughingthrushes, 2 red-whiskered bulbuls, 2 red-footed tortoises, 3 blue blotched stingrays, 2 epaulette sharks, 5 grey bamboo sharks and 5 yellow seahorses.
 - The Park's other acquisitions included 2 giant pandas, which were gifted by the Central Government to the Hong Kong Special Administrative Region. 6 big-headed turtles were donated to the Park by AFCD for conservation and educational purposes. In addition, 27 fish were acquired through field collection, 541 fish were acquired through donation and purchases, while 24 fish were added as part of stock adjustment.
 - There were 3 marine mammal mortalities, which included 1 harbour seal that died due to an anaesthetic-related complication, 1 geriatric 27-year-old California sea lion that died of inflammation, and 1 Indo-Pacific bottle-nosed dolphin that died of septicemia and multi-organ failure. The 5 terrestrial mammal mortalities included 1 Arctic fox, which was humanely euthanised due to meningioma, 1 capybara had exceeded the longevity for this species was humanely euthanised due to chronic wasting, 2 slender-tailed meerkats that died of cardiac arrest and humane euthanasia respectively, and 1 red-handed tamarin had exceeded the longevity for this species and died of chronic kidney disease. A total of 28 bird mortalities were recorded including 15 birds that had reached or exceeded the longevity for their species; 6 birds that had failed to live beyond one-month of age including 3 blue-crowned laughingthrushes, 2 red-whiskered bulbuls and 1 gentoo penguin; 7 adult bird losses due to euthanasia, disease or undetermined causes, including 2 gentoo penguins due to chronic disorder resulting in humane euthanasia and infection respectively, 1 southern rockhopper penguin due to congenital heart disease, 2 red-whiskered bulbuls due to gastrointestinal bleeding and undetermined cause of death respectively, 1 red-shouldered macaw due to undetermined cause of death and 1 wreathed hornbill was humanely euthanised due to kidney failure. The 4 reptile mortalities included 2 Asian leaf turtles and 1 Chinese stripe-necked turtle due to disease, and 1 red-footed tortoise was humanely euthanised due to intestinal tract obstruction. A total of 13 amphibian mortalities were recorded including 6 black-legged poison dart frogs, 1 Amazonian poison dart frog, 1 Günther's frog, 1 green and black poison dart frog and 2 golden poison dart frogs, and the majority of the deaths were recognised as autolysis or euthanasia or with undetermined cause, 1 geriatric dyeing poison dart frog was humanely euthanised due to poor body condition and 1 Amazon milk frog died due to rectal adenocarcinoma. The 429 marine and freshwater fish mortalities included the loss of 71 fish during quarantine, 358 fish that died in the collection. The majority of mortalities in the collection were from species with lifespans of 5 years or less, including Argentine humphead, flag cichlid, goldfish, red-cheeked kribia, broadnosed pipefish, red lined butterflyfish and stripey, which died due to multiple factors including age, disease, euthanasia and undetermined causes of death.
 - Other dispositions included the donation of 1 southern rockhopper penguin, 1 king penguin and 3 gentoo penguins to an aquarium in the Chinese Mainland. 66 goldfish and 15 koi were donated to local schools. A total of 1 red-whiskered bulbul, 1 spotted dove and 61 fish were deleted as part of stock adjustment.
1. 在園內出生的動物包括兩隻大熊貓、一隻川金絲猴、二十四隻巴布亞企鵝、三隻國王企鵝、一隻南跳岩企鵝、四隻藍冠鸚鵡、兩隻紅耳鸚、兩隻紅腳鸚鵡、三條藍點鰻、兩條金錢鯊、五條灰竹筴和五條黃海馬。
2. 公園引入動物包括由中央政府送贈予香港特別行政區的兩隻大熊貓，由漁護署捐贈予公園作保育及教育用途之六隻大頭鰻。此外，經野外收集獲得的魚有二十七條，透過捐贈和購買獲得的魚有五百四十一條，以及公園進行館藏統計時發現增加二十四條魚。
3. 有三隻海洋哺乳類動物離世，包括一隻港海豹因麻醉引起併發症離世、一隻二十七歲老年加州海獅因炎症感染離世、一隻印度太平洋樽鼻海豚因敗血症及多重器官衰竭離世。五隻陸上哺乳類動物離世，包括一隻北極狐因腦膜瘤，基於人道理由被安排安樂死、一隻已超出其物種平均壽命的水豚因機能衰退而進行安樂死、兩隻狐獴分別因心臟驟停及人道安樂死而離世、一隻已超出其物種平均壽命的赤掌獼猴死於慢性腎病。離世雀鳥合共二十八隻，當中有十五隻雀鳥已達至或超出其品種的平均壽命；六隻雀鳥未能存活超過一個月，包括三隻藍冠鸚鵡、兩隻紅耳鸚、一隻巴布亞企鵝；七隻成年雀鳥因安樂死、疾病或不明原因離世，包括兩隻巴布亞企鵝分別因慢性失調而進行安樂死和感染而離世、一隻南跳岩企鵝因先天性心臟病離世、兩隻紅耳鸚分別因腸道出血及未能確定死因離世、一隻紅肩金剛鸚鵡未能確定離世原因、一隻花冠鵲鵲因腎衰竭被安排安樂死。有四隻爬行類動物離世，包括兩隻齒緣龜及一隻中華花龜因疾病離世、一隻紅腳鸚鵡因腸道阻塞，出於人道理由進行安樂死。離世兩棲類動物合共十三隻，大多數死亡被確認因屍體自行分解、被安排安樂死或因未能確定，包括六隻黑腿毒箭蛙、一隻亞馬遜毒箭蛙、一隻沼蛙、一隻迷彩毒箭蛙及兩隻黃金毒箭蛙；一隻年老染色毒箭蛙因健康狀況欠佳而進行安樂死、一隻牛奶蛙死於直腸腺癌。四百二十九條死亡的海水及淡水魚當中，分別有七十一條魚在檢疫期間死亡，有三百五十八條魚在展示期間死亡。而於展示期間死亡的魚類中，大部分屬於壽命不會超過五年的品種，包括鮑氏裸光蓋麗魚、畫眉、金魚、紋鰭克羅比麗魚、寬吻海龍、紅海金蝶及斑馬，牠們分別因年老、疾病、安樂死和不確定的死因而離世。
4. 接受離園安排的動物包括捐贈予中國內地一家水族館之一隻南跳岩企鵝、一隻國王企鵝及三隻巴布亞企鵝，以及捐贈予本地學校的六十六條金魚及十五條錦鯉。另有一隻紅耳鸚、一隻珠頸斑鳩及六十一條魚於館藏統計後被刪除。

EDUCATION

教育工作

INSPIRING ACTION AND EMPOWERING CHANGE THROUGH EDUCATION

教育激勵行動 參與成就改變

Ocean Park Corporation (OPC)'s education and community engagement efforts reached groundbreaking achievements in financial year 2024–2025, engaging over 450,000 participants — a remarkable 50% increase from the previous year. As Hong Kong's largest nature classroom, the Park connects people of all ages to nature through experiential learning, creative storytelling and real-world environmental projects, transforming awareness into conservation action across schools, families and the wider community.

Through signature initiatives such as the Ocean Park Conservation Alliance, Seahorse Rangers and Mission R, OPC empowers children, youth and adults to take tangible steps towards sustainability. OPC has further strengthened partnerships with government bodies, educators and industry partners, embedding conservation values into everyday learning and laying the foundation for a greener, more resilient city.

在二零二四至二零二五財政年度，海洋公園公司（公園）的教育及社區參與工作迎來新突破，參與人次超過四十五萬，較去年顯著增長達百分之五十。作為香港最大的自然教室，公園透過體驗式學習、創新內容及實踐活動，將市民與自然緊密連繫，並在學校、家庭及社區中，將保育意識轉化為行動。

透過「海洋公園保育聯盟」、「海馬同學會」及「逆瀨行動」等旗艦項目，公園培育及引導兒童、青年及成人實踐理念，推動可持續發展。同時，公園繼續加強與政府機構、教育工作者及業界夥伴的合作，將保育價值觀深入日常學習，奠下基礎，建設一個更環保、更具韌性的城市。

Supercharging education with the help of giant pandas

Since welcoming Hong Kong's first pair of giant pandas from the Central Government in 1999, Ocean Park has become home to the city's most beloved animal ambassadors. Over the years, the Park's giant panda exhibits have received more than 55 million local and international visitors, and Hong Kong's resident giant pandas have helped convey powerful conservation messages to inspire countless people to care for wildlife and the environment.

Riding on the city's renewed enthusiasm for giant pandas, the Park enhanced numerous programmes with related learning elements to deepen understanding of biodiversity and conservation works. In financial year 2024–2025, OPC offered 31 giant panda and Sichuan-themed activities, increasing by over 70% than the previous year.

大熊貓引領教育新高度

海洋公園自一九九九年迎來中央政府贈送予香港的首對大熊貓以來，便成為城中最受歡迎動物大使的家。多年來，公園的大熊貓展館已接待了超過五千五百萬名本地及國際訪客，由居港大熊貓協助傳播強而有力的保育訊息，啟發無數人保護野生動物及環境。

隨著香港的大熊貓熱潮再次高漲，公園在二零二四至二零二五財政年度將更多相關的學習元素加入課程中，共提供三十一項以大熊貓及四川為主題的活動，增幅超過百分之七十，以加深公眾對生物多樣性及保育工作的理解。

Observing giant pandas up close

Tailored programmes allowed students of different ages to observe giant pandas first-hand and understand the challenges faced by the species and other animals sharing the same natural habitats. Highlights included: **The PANTastic Footprints** for kindergarten students; **Conservation Ambassador, The Beauty in Diversity** and **Growth of Giant Panda** for primary students; and **Bamboo Eaters**, and **Giant Panda Conservation Diary** for secondary students.

Rolling up our sleeves and recycling giant panda poo

Innovative workshops provided opportunities for visitors to connect with the giant pandas in fun and engaging ways. Participants made giant panda-favourite wowotou treats at the **Wowotou Studio**, crafted recycled paper from sanitised giant panda faeces at the **Panda Poo Paper Workshop**, and learnt giant panda care secrets from our educators.

Suitable for all ages, these activities turned curiosity into understanding and strengthened public appreciation for giant panda conservation.

近距離觀察大熊貓

公園為不同年齡的學生度身訂造多個課程，讓他們能夠親身觀察大熊貓，了解牠們及其他棲息於同一環境的野生動物所面臨的挑戰。重點活動包括：為幼稚園學生而設的「大熊貓跡中尋」；為小學生而設的「保育大使」、「海陸生物放大鏡」與「大熊貓成長之路」；以及為中學生而設的「竹林隱士」和「大熊貓保育日誌」。

親手回收大熊貓便便

透過新穎而趣味盎然的工作坊，訪客和大熊貓產生更深的連結。在「窩窩頭工作室」中，參加者可親手製作大熊貓最愛的窩窩頭點心；「大熊貓『便』利紙」則可以運用經消毒處理的大熊貓糞便製作再造紙，並從我們的教育大使了解照顧大熊貓的軼事。

這些老少咸宜的體驗將好奇心轉化成知識，進一步提升公眾對大熊貓及其保育工作的欣賞與支持。

Ocean Park Conservation Alliance and Seahorse Rangers: nurturing young conservationists

Ocean Park continued to extend the energy of conservation education beyond the Park. Our education teams channelled students' curiosity into broader conservation awareness through the launch of **Ocean Park Conservation Alliance** and **Seahorse Rangers** initiatives. These programmes empower students across kindergartens, primary and secondary schools to move from observing animals to taking action.

In the past year, the Seahorse Rangers initiative expanded significantly with the support from the Environment and Conservation Fund. Participating kindergartens can now support an entire grade of students to become members of the Seahorse Rangers with our sponsorships.

As of 30 June 2025, more than 520 schools joined the Conservation Alliance, and the Seahorse Rangers community has grown to over 10,000 young members. Through immersive workshops and field activities, Rangers apply classroom knowledge to life and created measurable community impact.

Learning through connection and creativity

Throughout the year, students gained valuable insights into animal conservation through exclusive experiences at the Giant Panda Adventure and Hong Kong Jockey Club Sichuan Treasures, including **Private Tours by Caretakers** that offered fun facts about the adorable giant pandas. They also participated in **Online Conservation with Giant Panda Experts** from Sichuan and Hong Kong, deepening their understanding of conservation work for the precious species and collaboration.

Creative activities such as the **Giant Panda Painting Competition** co-organised with the Culture, Sports and Tourism Bureau, **'We Learn. We Draw' Ocean Park Drawing Competition**, and the **Animal Photopoetry Creative Challenge** co-organised with the Education Bureau, which further inspired students to express their passion for animals through art while promoting biodiversity awareness.

Conservation Carnival

Creativity flourished at **Ocean Park Conservation Carnival** when 37 Ocean Park Conservation Alliance schools gathered at the Park to present their ideas for tackling environmental challenges, as well as to celebrate their conservation efforts achieved by Seahorse Rangers in the previous school year. They showcased their conservation projects and community engagement efforts through interactive game booths, which educated the Park's guests on topics such as how to live a low-carbon life and conserve endangered species and ocean biodiversity.

透過連繫與創作加深了解

過去一年，學生透過參與「大熊貓之旅」及「香港賽馬會四川奇珍館」的專屬體驗，深入了解動物保育工作。這些體驗包括由動物護理員帶領的「奶爸奶媽獨家團」，他們以生動有趣的方式分享可愛大熊貓的趣聞軼事，而在「與大熊貓專家對話」線上活動，學生亦加深對這珍稀物種的保育工作及協作的了解。

公園推出一系列創意活動，進一步啟發學生以藝術方式展現他們對動物的熱愛，同時推廣生物多樣性，這些活動包括與文化體育及旅遊局合辦的「大熊貓繪畫比賽」，以及與教育局合辦的「『邊學·邊畫』海洋公園繪畫比賽」和「動物攝影『詩』創意大挑戰」。

保育嘉年華

三十七間「海洋公園保育聯盟學校」齊集海洋公園，慶祝「海馬同學會」成員於過去一個學年在保育上的成就，並於「海洋公園保育嘉年華」中展示他們應對環境挑戰的方案，展現無窮創意。他們透過互動遊戲攤位展示其保育項目和社區參與工作，這些攤位考驗訪客對低碳生活的認識，並讓他們了解如何保護瀕危物種及海洋生態。

The creativity continued in January 2025 with the **Cultural and Creative Conservation Market**, where over 600 students and teachers managed 30 booths featuring giant panda and Sichuan-themed products. All proceeds supported Ocean Park's conservation efforts, linking creativity, community and sustainability.

During the 2024-2025 academic year, Seahorse Rangers continued to take action in the Conservation Alliance's three flagship activities: **SGREEN Recycle at School**, **Low Carbon PLS Day**, and the **City Nature Challenge 2025**.

二零二五年一月公園舉辦了「文創保育市集」，超過六百名學生和教師繼續發揮無限創意，設立三十個攤位，展示大熊貓和四川主題的產品。所有收益均用於支持海洋公園的保育工作，將創意、社區和可持續發展聯繫起來。

在二零二四至二零二五學年期間，「海馬同學會」繼續參與保育聯盟的三項旗艦活動：「SGREEN回收在校園」、「『低碳呀，唔該！』日」和「城市自然挑戰賽 2025」。

Mission R: taking sustainability to the community level

As an education and conservation initiative that fosters community collaboration and inspires the public to integrate conservation actions into daily lives, **Mission R** extends Ocean Park's sustainability commitments to the wider community and advances towards a sustainable future.

Promoting consumption of local food

To reduce the carbon emissions associated with long-distance food transportation, OPC launched the **Eat Local** programme to encourage the consumption of locally produced ingredients across various stages of the farm-to-plate journey.

Key events included the **Eat Local Kick-off Ceremony cum Business Forum**, which promoted the supply and sourcing of Hong Kong-grown produce. As of financial year 2024-2025, the initiative successfully recruited over 220 industry members, ranging from farms, fish farms, restaurants to retail partners, and united efforts to share experiences, strengthen supply chains and enhance public understanding of food miles.

逆瀕行動：將可持續發展帶到社區層面

「逆瀕行動」是一個教育和保育項目，旨在促進社區層面的合作，以及鼓勵大眾在日常生活中將保育付諸實際行動，藉此將海洋公園的可持續發展承諾擴展至更廣泛的社區，共同邁向可持續發展的未來。

推廣本地食材的消費

為減少由長途食材運輸所衍生的碳排放，公園推出了「食本地鮮」計劃，透過「由農場到餐桌」旅程的各個階段，鼓勵消費本地生產的食材。

旗艦活動「食本地鮮」啟動禮暨業界交流會，推廣香港種植的農產品供應及採購。截至二零二四至二零二五財政年度，該計劃成功招募超過二百二十位會員機構，範圍涵蓋農場、漁場、餐廳到零售夥伴，並團結各方努力，分享經驗、加強供應鏈及提高公眾對食物里程的認識。

OPC also actively participated in local agriculture and fisheries events such as the **Organic Day 2025**, **Farm and Gourmet Festival**, and **FarmFest HK 2025**. These platforms promoted the use of quality local ingredients, supported Hong Kong's farmers and fishers, and raised public awareness of the links between food choices and climate change.

Removing plastic waste from our harbours

To keep our harbours clean and healthy, OPC led the **Jockey Club Marine Plastic Challenge Education Programme** to remove over 67,000 plastic bottles, 36,000 aluminium cans, and nearly 35 tonnes of landfill waste from Aberdeen Typhoon Shelter, Causeway Bay Typhoon Shelter and Shau Kei Wan Typhoon Shelter, during the year, using four solar-powered vessels designed and built by Clean Waterways Initiative to clear marine debris from the waters.

The programme, which is funded by The Hong Kong Jockey Club Charities Trust and falls under the Mission R initiative, is designed to use innovative ways to remove ocean trash and minimise environmental impact using technology. The use of solar powered vessels during the mission has reduced more than 57,000kg of carbon dioxide emissions.

公園亦積極參與本地漁農業界活動，例如「**全城有機日 2025**」、「**漁農美食墟**」和「**2025本地漁農美食嘉年華**」。這些平台推廣使用優質本地食材、支持香港農民和漁民，並提升了公眾對食物選擇和氣候變化之間聯繫的意識。

清理海港塑膠垃圾

為保持香港水域清潔及生態健康，公園推動「**賽馬會『拾塑行動』教育計劃**」以四艘由「潔淨水域行動」設計及建造的太陽能淨港船，在年內於香港仔避風塘、銅鑼灣避風塘及筲箕灣避風塘清理海洋垃圾，移除超過六萬七千個膠樽、三萬六千個鋁罐以及近三十五噸堆填區廢物。

該計劃由香港賽馬會慈善信託基金捐助，屬於公園的「逆瀕行動」倡議其中一個重點項目。項目旨在以創新方法清理海洋垃圾，並利用科技將對環境的影響降至最低。該計劃使用太陽能驅動垃圾收集船，已減少超過五萬七千公斤的二氧化碳排放量。

35 tonnes 噸

Ocean Park also utilised the clean-up efforts to actively engage the community by leveraging the curiosity sparked by the eye-catching vessels and innovative concept of the project, reaching out to over 8,000 students and members of the public through school education programmes, interschool competitions and community carnivals. This strategy enhanced awareness of the importance of having plastic-free and marine pollution-free harbours, and inspire young generations to embrace sustainable practices for a healthier planet.

Bringing the curriculum to life through nature

Ocean Park Academy Hong Kong, the school education arm of OPC, continued to provide educational programmes designed to complement the local school curriculum for students of all ages. Through interactive and experiential learning, these programmes connect classroom knowledge with true encounters in nature, fostering curiosity, environmental awareness and a lifelong appreciation for conservation.

海洋公園亦利用這項清潔工作，透過引人注目的船隻和項目的創意所激發公眾好奇心，積極聯繫社區，透過教育計劃、校際比賽和社區嘉年華等活動，接觸超過八千名學生和公眾人士，不但提高公眾對無塑膠及無污染海港重要性的認知，更啟發年輕一代採納可持續實踐，以創造一個更健康的地球。

從課堂走進大自然 活學活用

香港海洋公園學院作為公園教育工作的重要一環，持續為不同年齡層的學生提供多元化教育課程，旨在與本地學校課程互相配合。學院透過互動及體驗式的學習方式，把課堂知識與親身接觸大自然的經歷緊密結合，從而培養學生的好奇心、環保意識及對保育的長期關注。

The Academy's programmes incorporate elements from the Primary Humanities Curriculum Guide, the Primary Science Curriculum Guide and the Secondary Education Curriculum Guide issued by the Education Bureau, encouraging inquiry, observation and collaboration. By experiencing nature first-hand — whether observing animal behaviour, analysing habitats or exploring human-environment relationships — students deepened their understanding of biodiversity, sustainability and the importance of conservation. These hands-on experiences served as valuable extensions of classroom learning, helping teachers reinforce teaching objectives through real-life applications.

To support career exploration, the Academy also provides Life Planning Education opportunities through behind-the-scenes tours, allowing students to learn from professionals in animal care, wildlife rescue, design and engineering while building a sense of empathy and responsibility towards nature.

In collaboration with the Home and Youth Affairs Bureau under its Funding Scheme for Youth Internship in the Mainland, OPC organised three summer thematic internship tours over the summer holiday in 2024, namely the **Youth Internship Programme at Wolong Region of Giant Panda National Park**, the **Marine Science Youth Internship Programme in Shandong**, and the **Biodiversity Conservation Youth Internship Programme in Wuyishan**.

學院課程融入了教育局《小學人文科課程指引》、《小學科學科課程指引》及《中學教育課程指引》的核心元素，鼓勵學生主動探究、細心觀察及協作解難。學生透過親身走進大自然——無論是觀察動物行為、分析棲息地環境，抑或探索人類與大自然的關係——都能讓他們對生物多樣性、可持續發展及保育的重要性有著更深刻的理解。這些親身體驗有效延伸課堂學習，有助教師以真實情境鞏固教學目標。

為支持學生進行生涯規劃，學院亦透過幕後之旅提供與工作相關的學習機會，讓他們向動物護理、野生動物救援及工程設計等專業人員汲取知識，並在過程中培養對大自然的同理心與責任感。

公園亦與民政及青年事務局合作，於「青年內地實習資助計劃」下於二零二四年暑假推出三個主題實習團，包括「**大熊貓國家公園臥龍片區青年實習計劃**」、「**山東青島海洋科學青年實習計劃**」及「**武夷山生物多樣性保育青年實習計劃**」。

Through these programmes that bridged the gap between academic knowledge and real-world application, 52 Hong Kong youths gained exposure to workplace practices through job shadowing, strengthened their awareness of the nation's remarkable conservation efforts, promoted cultural exchange, and developed a broader perspective on future career development.

OPC has also extended its education offerings to the Chinese Mainland and overseas markets. During the financial year, OPC became the first entity outside the Chinese Mainland accredited by the Guangdong Province Study Tour Association as a 'Study Tour Base in Guangdong Province', and by the Guangzhou Study Tour Association as 'Fourth Batch of Study Tours Base for Primary and Secondary School Students in Guangzhou'. These achievements have further solidified OPC's leadership in conservation and education, and bolstered Hong Kong's attractiveness as a destination for study tours.

OPC also collaborated with the Education Bureau to actively promote students' mental health. **Mental Health Fun Day** invited primary and secondary students to the Park and engaged in interactive activities with our educators to recognise the four key elements of the 4Rs Mental Health Charter — Rest, Relaxation, Relationship, and Resilience. **'Learning Chinese On Foot'** programme enhanced non-Chinese speaking primary and secondary students' Chinese skills in a relaxed and joyful atmosphere with engaging activities led by our educators at various animal exhibits.

透過這些結合理論與實踐的計劃，五十二名香港青年從工作影子實習獲得寶貴的職場體驗，深化對國家在保育領域卓越成果的認識，同時促進文化交流，並拓闊他們對未來職涯發展的視野。

公園更延伸教育服務至內地及海外地區，於本年度成功獲認證為首個內地以外由廣東省研學旅行協會發出的「廣東省研學旅行實踐基地」及由廣州市研學實踐協會發出的「廣州市第四批中小學生研學實踐教育基地」，進一步鞏固公園於保育及教育領域的領先地位，並協助提升香港作為研學旅遊目的地的吸引力。

公園亦與教育局合作，積極關注學生的精神健康。**「【動·心】精神健康同樂日」**邀請中、小學生到訪公園，與教育大使參與互動遊戲，了解《4Rs精神健康約章》四大要素：休息、放鬆、人際關係及抗逆力；**「散步學中文」**則讓非華語中、小學生在教育大使的帶領下參觀不同動物展館，在輕鬆愉快的氛圍中提升中文能力並學習保育知識。

Bringing conservation learning to life for everyone

Besides learning from observing giant pandas at Ocean Park, the public can also gain an understanding of the precious species through reading. We supported Chung Hwa Book Company (Hong Kong) Ltd in the publication of the book titled ***Bamboo Dream - The Stories Between Giant Pandas and Hong Kong*** on content creation and editorial review. A portion of the royalties will be donated to Ocean Park to support its giant panda conservation and education work.

This year, giant pandas made conservation education more captivating and wider-reaching. Going forward, OPC will continue to integrate strong education messages into giant panda-related activities and experiences, allowing the public to understand the deep purpose behind giant panda conservation.

Beyond giant pandas, the Park will offer creative experiences that connect visitors with nature and highlight the beauty of biodiversity. Together, these efforts reflect OPC's lasting commitment to inspiring everyone to help protect the planet for future generations.

將保育學習活現眼前 推廣至普羅大眾

除了讓訪客在海洋公園觀察大熊貓、親身體驗保育工作外，我們亦致力透過書籍教育大眾，增加學習機會。海洋公園全力支持中華書局(香港)有限公司出版圖書《**竹夢香港——大熊貓與香港的故事**》，提供相關資料並參與內容審定。部分書籍版權收益將撥捐予海洋公園，以支持大熊貓的保育及教育項目。

今年，大熊貓令保育教育更具吸引力，並觸及更廣泛的社群。展望未來，公園將繼續把深具意義的教育元素融入各項大熊貓相關活動和體驗之中，協助公眾更深入理解保育大熊貓的重要意義。

大熊貓以外，海洋公園亦致力推出更多創意體驗，讓訪客在輕鬆愉快的環境中與大自然建立更深層的連結，同時展現生物多樣性的豐富與美麗。從各方面的努力充分體現公園致力啟發大眾共同守護地球、為未來世代締造可持續環境的長遠承諾。

Meet the team

Behind every hands-on workshop, inspiring class, and creative sustainability campaign stands a passionate education team dedicated to turning curiosity into action. Ocean Park's Education Division brings together nearly 400 professionals and volunteers who transform conservation knowledge into learning experiences for audiences of all ages — from preschoolers and students to families, teachers, and corporate partners.

Across three specialised teams — Fun Learning, Discovery & Education, and Sustainability Education — they blend science, creativity, and empathy to help people connect with nature in meaningful ways. Together, they embody Ocean Park's mission to foster environmental stewardship by creating fun and meaningful experiences.

Helmsman of Ocean Park's education work 引領海洋公園教育項目

Ocean Park's Education Team is creative, user-centric and empowering. We don't just deliver messages, but we walk the talk. We understand the challenges and barriers for living an environmental-friendly lifestyle and business practice, so we work with everyone, taking one step at a time towards a sustainable future.

I am always happy to see the joy and empowerment on participants' faces after a visit at Ocean Park. Conservation education can sometimes be daunting, but our role is to empower everyone for a positive change.

There was a little boy who joined the nighttime experience at The Grand Aquarium. After spending the night watching the sharks before taking a rest, he told us the next morning that he had dreamt about them — and promised never to consume shark fin again. That was the moment I knew our work truly makes a difference.

海洋公園的教育團隊充滿創意、以人為本，並以啟發思維為宗旨，不僅傳遞信息，更身體力行。我們明白在實踐環保生活方式和商業模式時所面對的挑戰與障礙，因此與大家並肩同行，一步一步邁向可持續的未來。

每當看見訪客到訪海洋公園後流露的喜悅及得著，都為我帶來莫大的成就感。保育教育之路雖然有時艱鉅，但我們的職責，正是激勵每個人，帶來正向改變。

有一次，一位參加了海洋奇觀夜間體驗的男生休息前一直觀察鯊魚。第二天，他告訴我們，自己夢見了鯊魚，並立志終生不再食用魚翅。那一刻，我深深感受到，我們的工作真的能帶來改變。

認識公園的教育團隊

在每一場工作坊、啟發人心的課堂，以及推動可持續發展的活動背後，都有一支充滿熱誠的教育團隊，致力將人的好奇心轉化為實際行動。海洋公園教育部匯聚近四百名專業人員及義工，他們將保育知識轉化為富啟發性的學習體驗，服務對象涵蓋不同年齡層的受眾，從學前兒童、學生、家庭、教師以至企業夥伴。

團隊架構由三個專業單位組成——寓教於樂部、探索與教育部及可持續發展教育部。三支團隊結合科學、創意，及同理心，協助各界以更有意義的方式與大自然連結。這支充滿使命感的團隊充分體現海洋公園的核心宗旨：透過創造有趣而有意義的體驗，培養人與大自然和諧共存。

Visitor engagement and public programmes 訪客互動及公眾活動

Conservation used to feel like a serious topic, but I love showing that it can be shared in a light-hearted and engaging way. When visitors learn about conservation through joy, laughter, and fun experiences, the message stays with them and spreads even further.

過往看似嚴肅的保育課題，其實可以用輕鬆、有趣的方式分享。當大家在歡笑中學懂保育，這份喜悅更容易傳開。

ENTERTAINMENT AND LEISURE

娛樂及休閒

INSPIRING DISCOVERY AND EXCITEMENT FOR ALL AGES

啟發每個訪客 踏上探索與歡樂之旅

In a year when Hong Kong saw strong growth in global tourism, Ocean Park played an active role in enriching the city's entertainment and leisure landscape. We unveiled a dynamic spectrum of experiences over the financial year, from vibrant seasonal festivals to celebratory events, designed to draw in and delight a diverse international audience.

The addition of four new giant pandas sparked citywide excitement. A heartwarming array of giant panda-themed activities captivated locals and tourists alike, reinforcing Ocean Park as a destination where fun meets conservation and education.

Rounding out a milestone year, we also unveiled plans for Adventure Zone at Upper Park — a bold new addition that will amplify Ocean Park's role as Hong Kong's premier destination for leisure and adventure.

香港在全球旅遊業復蘇下，迎來增長亮麗的一年。海洋公園充分把握機遇，為香港的娛樂及休閒版圖注入嶄新活力。本財政年度，我們精心推出多項豐富而多元的項目，涵蓋節日慶典及主題慶祝活動，款待全球旅客，帶來難忘愉悅的體驗。

四隻大熊貓新成員的加入，掀起全城熱潮。一系列窩心的大熊貓主題活動，不僅深深吸引本地市民及訪港旅客，更進一步深化海洋公園「融合趣味、保育與教育」的獨特定位。

隨著海洋公園邁入新里程，我們亦公布位於山上新園區「歷險主題區」的規劃，藉此進一步鞏固海洋公園作為香港首屈一指休閒及歷險熱點的地位。

Ocean Park

Splash into a summer of excitement

Over the summer months, Ocean Park brought refreshing energy to visitors with its signature **Summer Splash**. Waterfront Plaza was transformed into a vibrant cool zone where visitors swayed to lively beats and escaped the heat amid the gigantic headphone-shaped water sprayers and speaker-shaped mist machines. On the stage, top-ranked performers from around the world captivated crowds with unicycle acts, fire tricks, aerial dances, and more.

Energy levels soared with the **H2O Party**, a dance-and-splash spectacular where performers leapt to music while shooting refreshing bursts of coolness at the audience. As evening fell, visitors were left breathless by dazzling lit-up fountains that danced in sync at the immersive show, **Gala of Lights**, featuring stunning new pyro effects that blazed across the night sky. Summer Splash transformed the city's hottest season into one of pure exhilaration.

海洋公園

夏日暢玩，激爽無限

炎炎夏日，海洋公園以標誌性的「**夏水禮**」，為訪客帶來一股清新活力。海濱樂園廣場搖身一變成為活力四射的消暑勝地，訪客們隨著節奏鮮明的音樂盡情搖擺，在巨大化耳機造型噴水裝置和喇叭造型造霧機的環繞下躲避酷熱。來自全球各地的頂尖表演者輪流獻技，包括單輪車特技、火焰雜技、空中舞蹈等精彩節目——呈現於眼前，吸引訪客駐足欣賞。

「**H2O 擂台派對**」帶來結合舞蹈與水花的表演，將園區氣氛帶到最高點。表演者隨著音樂律動，同時向觀眾噴灑清涼水花。夜幕低垂，訪客們亦全情投入璀璨的「**光影盛夜**」之中，閃耀奪目的噴泉、璀璨光雕的投影與音樂同步舞動，配合全新的煙火特效，令人嘆為觀止。「夏水禮」將這個城市最火熱的季節轉化為歡樂盛會。

Halloween Fest 2024 rings in all day spooky fun

Ocean Park Halloween Fest 2024 returned with the spine-chilling theme Horrors of the Hidden City, turning the Park into a realm of fright and fun that fascinated visitors of all ages. The event featured six haunted houses, ten live performances and countless immersive experiences that kept participants on edge from day to night.

By day, families enjoyed a lighter side of Halloween through **Trick-or-Treat presented by ecHome Appliances**, where children played candy-filled games, hunted pumpkin monsters, and celebrated with Whiskers and Friends in festive costumes.

When night fell, the Hidden City revealed its terrors. Visitors began their chilling journey in **Dreadful Walled City presented by AEON Card**, stepping into narrow alleyways of a 1980s Kowloon-inspired maze filled with shadows, secrets, and lurking danger. They then braved **Prison Escape** — a high security penitentiary turned nightmare where a botched experiment sparked chaos — and **Netherworld Wedding presented by Asahi Super Dry**, a haunting family ceremony that trapped guests in an eternal union with the undead.

With additional horrors awaiting at **Powered by Klook: Hotel Morte, Horror of Homestead**, and **Forbidden Zone 724**, every corner of the Park pulsed with suspense and surprise.

A lineup of ten live stage performances added to the atmosphere, headlined by the hugely popular Korean vampire dance troupe in **Too Hot to K-Oppa**. Blending high-energy choreography with dark humour and K-pop charisma, the show garnered overwhelming audience acclaim and quickly became talk of the town.

「海洋公園哈囉喂全園祭2024」

驚慄狂歡 不分晝夜

「海洋公園哈囉喂全園祭2024」以「厲鬼圍城」為主題驚慄登場。園區化身為恐懼與歡樂並存的異域世界，讓不同年齡層的訪客深深著迷。「厲鬼圍城」設有六大驚嚇鬼屋、十項精彩表演及多項沉浸式體驗活動，營造全天候緊張刺激的氛圍。

日間時段，一眾家庭訪客參與【**億世家「好盞鬼電器」**呈獻：全民Trick-or-Treat】，大小朋友在充滿糖果的遊戲中尋找南瓜怪，並與盛裝打扮的「威威與好友」合照留念。

甫進晚上，六大驚嚇鬼屋門戶大開，揭開其駭人面目。訪客由【**AEON信用卡呈獻：城寨詭域**】展開驚嚇之旅，走進以80年代九龍城寨為設計藍本的迷宮窄巷，處處充斥著陰森、詭秘與潛藏危機。城寨之外驚爆大規模【**囚·逃**】——進入一座由高度戒備監獄變身而成的惡夢之地，體驗一場由實驗失敗而引發的混亂。【**Asahi Super Dry呈獻：冥府婚宴**】則將訪客禁錮在陰森的家族儀式中，與亡靈永結同心。

更多驚慄場景包括【**Klook 放試推介：亡幽酒店**】、【**凶靈宅院**】及【**724 禁地**】，令園區每個角落都瀰漫著懸疑與驚嚇，讓每個人心跳加速。

十大精彩舞台表演將陰森氛圍推到極點，其中由韓國吸血鬼男團帶來的「**魔間狂野OPPA Show**」，融合連場勁舞、暗黑幽默與K-pop魅力，為訪客帶來難忘的體驗。

A big birthday party for Jia Jia and De De

The year's biggest excitement came with the birth of Hong Kong's first-ever giant panda twin cubs, Jia Jia and De De, on 15 August 2024. To mark their 100-day milestone, Ocean Park threw a roaring bash on 23 and 24 November, honouring Chinese traditions by distributing red eggs, and pork knuckles with ginger to visitors.

Livestreams projected on the giant screen allowed everyone to witness the cubs' playful moments. Giant Panda-themed workshops offered hands-on fun, from crafting clay giant panda figurines to creating wood art. Specially decorated spots with giant panda-themed props also provided giant panda lovers ample opportunities for memorable photos.

To cap off the festivities, electrifying performances including a special 100-day edition of the mascot sing and dance jam show, and a vibrant roving band entertained the crowds. As night fell, Aqua City Lagoon put on a mesmerising multimedia show, which featured scenes of the cubs accompanied by heartfelt blessings, celebrating the gift of life. The party built excitement for the adorable giant panda twins' debut in February 2025.

加加得得盛大百日慶典派對

本年度最令人振奮的消息，莫過於二零二四年八月十五日香港首對大熊貓雙胞胎加加和得得的誕生。為慶祝這對寶寶的百日生辰，海洋公園於十一月二十三日至二十四日舉行盛大慶典，並遵照中國傳統習俗，大派紅雞蛋和豬腳薑，寓意吉祥喜慶。

海洋公園邀請全港市民一同見證加加與得得的成長，透過園內的巨型屏幕，直播熊貓寶寶活潑玩耍的珍貴時刻；更安排了一系列以大熊貓為主題的工作坊，從黏土製作到木雕工藝，應有盡有。園內特設多個大熊貓主題的打卡裝置，吸引一眾大熊貓粉絲拍照留念。

派對的壓軸節目包括精心編排的百日限定吉祥物歌舞匯演，以及活力四射的巡遊樂隊表演。晚間更於夢幻水都人工湖上演絢麗奪目的多媒體匯演，畫面穿插雙胞胎成長片段以及誠摯的祝福語，致敬生命的珍貴饋贈。百日慶典成功引爆全城熱潮，為二零二五年二月可愛大熊貓雙胞胎正式與公眾見面預熱造勢。

A 'pandastic' winter gala

The **Wondrous Winter Gala** at Ocean Park was made even more special with the Park's newest stars, the adorable giant panda duo An An and Ke Ke and the newborn giant panda twins Jia Jia and De De. Together with the cubs' parents, Ying Ying and Le Le, they brought extra joy and warmth to the festive season, marking their first Christmas in Hong Kong.

The highlight of the celebration, **Panda Wonders: An Illuminated Journey**, transported visitors into a captivating giant panda-themed fantasy world where light and shadow danced harmoniously to create surreal wonders. Visitors explored radiant landscapes filled with interactive installations and glowing bamboo, discovering lifelike giant panda projections that combined artistry and technology.

The journey concluded with **Panda FunSnap**, an augmented reality encounter allowing visitors to capture picture-perfect moments with virtual giant pandas. The Park came alive with an array of giant panda-themed decorations, blending the wonder of the holidays with the charm of the city's beloved giant pandas.

Snakes and giant pandas ushered in the Lunar New Year

Scaly and slithery ones shared the limelight with black and white fur balls as Ocean Park welcomed the Year of the Snake with its unprecedented number of six giant pandas — the largest number outside the Chinese Mainland. Traditional dragon and lion dances and the God of Fortune filled the air with festive energy, while the giant pandas' playful presence made the celebrations especially memorable.

The new **Cubs' Channel** interactive game at Waterfront Plaza let visitors become giant panda nannies caring for twin cubs in a virtual bamboo forest, uncovering fun facts about wildlife protection through engaging challenges. A variety of **giant panda-themed New Year merchandise and experiences**, added even more colour and joy to the celebration.

冬日大熊貓盛典

今年的「玩轉冬日園」增添了全新的大熊貓明星陣容——安安和可可，以及剛出生的雙胞胎加加和得得，聯同雙胞胎的父母盈盈和樂樂一同度過在香港的首個聖誕節，為園區注入溫馨歡愉的節日氣息。

萬勿錯過主打景點「大熊貓『竹』夢之旅」！透過光與影交織的場景帶領訪客走進奇幻大熊貓國度，探索帶有互動元素的燈光竹林，並以結合藝術與科技的投影，呈現靈動的熊貓影像。

旅程於「萌趣熊貓影相站」圓滿結束，訪客紛紛利用擴增實境拍下與虛擬大熊貓的有趣合照，留下難忘的節日回憶。

「熊」抱蛇年賀新春

龍去蛇來，為海洋公園創下中國內地以外最多大熊貓聚居之地紀錄的六隻大熊貓亦同賀新歲，以黑白色的毛球與閃閃生輝的蛇鱗互相輝映。傳統的舞龍舞獅及財神為園區注入濃厚的節慶氣息，而大熊貓的活潑身影則讓慶祝活動倍添色彩。

海濱樂園廣場新增的「大熊貓雙星道」互動體驗，讓訪客化身大熊貓奶爸奶媽，在虛擬竹林中與龍鳳胎寶寶互動，透過有趣的挑戰，探索野生動物保育的知識。園內亦呈獻多款**大熊貓主題新年精品及體驗活動**，為新春慶典增添更多色彩與歡樂。

Panda Twins Fan Club

Only eight months old and already boasting many followers, the Hong Kong-born giant panda twins, Jia Jia and De De, needed their very own fan club. With its launch ceremony officiated by MIRROR's Ian Chan and Keung To, the Panda Twins Fan Club, a brand-new community dedicated to the beloved siblings, brings benefits to giant panda fans while teaching them about conservation.

The fan club's theme song *Panda Cuddle* recorded over 215,000 views and 8,300 likes on YouTube within four weeks, spreading the twins' charm and conservation message to an even wider audience. The song was selected as the music for sixth scene of the National Day Fireworks Display over Victoria Harbour on 1 October 2025, to celebrate the 75th anniversary of the founding of the People's Republic of China. The sixth scene, 'The Legend of Pandas', mainly featured the green colour, and showed images of giant pandas' favourite food, such as bamboo leaves, to express the citywide welcome for their arrival. The giant pandas' and the song's inclusion in the celebration showed the importance of our furry friends to the city on this momentous occasion.

Panda Friends take Hong Kong by storm

Beyond igniting the giant panda craze in Ocean Park, we also spread giant panda vibes throughout Hong Kong. Panda Friends actively joined Hong Kong's cultural, sports and tourism events alongside Whiskers and Friends, supporting the city's thriving mega-events economy.

Their innate charm captivated locals and tourists at events including the PANDA GO! FEST HK, the Lunar New Year Cup, the Hong Kong Sevens, the Kai Tak Sports Park opening, the Hong Kong International Dragon Boat Races, and more. Moreover, record merchandise sales of the Panda Friends official products further revealed how the city remained mesmerised by our furry friends.

家姐細佬後援會

僅八個月大的時候，加加和得得已經坐擁大量粉絲，在 MIRROR 成員陳卓賢及姜濤的見證下，「家姐細佬後援會」正式成立，凝聚一群熱愛大熊貓的朋友，享受專屬禮遇，同時推廣保育理念。

後援會主題曲《抱抱大熊貓》在 YouTube 上架短短四周，即錄得超過 215,000 次觀看及 8,300 個讚好，成功將雙胞胎寶寶的魅力與保育訊息廣泛傳遞。該歌曲更成為二零二五年十月一日及慶祝中華人民共和國成立七十五周年國慶維港煙花匯演第六幕「喜迎國寶熊貓」的配樂，場景以綠色為基調，並投映大熊貓最愛竹葉圖案，象徵全城喜迎大熊貓寶寶到來。

Panda Friends 席捲全港

除了在海洋公園掀起大熊貓熱潮，Panda Friends 亦現身香港各大文化、體育及旅遊盛事，聯同「威威與好友」並肩參與，支持香港的盛事經濟。

無論是「PANDA GO! 香港遊」、賀歲盃足球賽、香港國際七人欖球賽、啟德體育園開幕，抑或是香港國際龍舟邀請賽，Panda Friends 總能成為眾人焦點。同時，Panda Friends 官方商品創下銷售新高，反映牠們的可愛魅力令全城著迷。

Water World

Celebrating the Olympic spirit

Ocean Park embraced the excitement of the Paris 2024 Olympic Games. While athletes competed in Paris, a cheering section was organised at Water World's **Horizon Cove presented by Manulife**. Fans enthusiastically cheered on their favourite athletes and immersed themselves in the thrill of Olympic competitions while watching live broadcasts and drifting in the largest indoor wave pool in Hong Kong.

Summer cool

After three years of continuous operation, Water World took its first seasonal break in mid-October 2024 for maintenance works and reopened on 17 May 2025, bringing back a tidal wave of aquatic adventures and special offers. Adventurers once again enjoyed the exhilarating slides, wave pools and attractions that make Water World a premier destination for aquatic entertainment.

The reopening drew an enthusiastic response, arriving just in time to help Hong Kong residents and tourists beat the summer heat. To celebrate, Hong Kong Diploma of Secondary Education (DSE) candidates were offered half-price tickets on reopening day — a well-received gesture that rewarded their hard work with a day of well-deserved relaxation and excitement.

水上樂園

奧運熱潮 延續於水上

2024年巴黎奧運會期間，水上樂園「**宏利呈獻：天海灣**」特設觀賽專區，讓市民在香港最大室內造浪池中觀賞賽事直播，為喜愛的運動員打氣，全情投入奧運的激昂氣氛。

盛夏重啟

水上樂園經過三年持續運營後，首次於二零二四年十月中進行季節性休園，為設施進行保養工程，並於二零二五年五月十七日重新開放，再次掀起夏日水上熱潮。探險家再度聚首一堂，盡情體驗刺激的滑水梯、造浪池等人氣設施，全天候投入水上活動的樂趣。

水上樂園重開反應熱烈，吸引大量本地與訪港旅客入場消暑。為慶祝重開，水上樂園特別為應屆中學文憑試考生提供半價門票優惠，讓莘莘學子在考試後放鬆身心。

First-ever nighttime water party

In summer 2025, Water World redefined aquatic fun by launching its first-ever nighttime event, **Get! Splash! Tonight!** The one-of-a-kind evening entertainment enabled visitors to enjoy Water World from day to night on designated weekends, with a single ticket.

As evening fell, Water World was transformed into an unparalleled party hub featuring **Groove in Silence** where adventurers danced under the stars with wireless headsets; the **Poolside Cheers** bar, where friends relaxed amid floating lights and refreshing drinks; and **DJ in Your Area**, where DJs, dazzling lights, and MC led games kept the energy high for a night of nonstop summer excitement.

Looking ahead

This year has truly been exceptional. With so much entertainment on offer and much more to come, including several new facilities that will be launched to celebrate Ocean Park's 50th anniversary in 2027, together with the opening of Adventure Zone in 2028, OPC is well positioned to create more fun and meaningful nature-focused experiences for visitors, as well as opportunities for leisure and adventure.

首個夜間水上派對

二零二五年夏季，水上樂園首度呈獻夜間活動「**水花·狂歡夜**」，讓訪客憑單一門票即可於指定周末享受由白天玩到夜晚的獨特夜間體驗。

夜幕降臨，園區化身水上派對慶典，讓探險家在「**Shh! 無聲·派對**」戴上無線耳機，隨著音樂節拍盡情舞動，在「**池畔Cheers**」酒吧的漂浮燈飾下享受冰涼飲品，在「**DJ in Your Area**」欣賞DJ現場打碟、在炫幻燈光下參與互動遊戲，令盛夏氣氛持續高漲。

展望未來

這一年對我們而言意義非凡。隨著多項全新設施將於二零二七年海洋公園五十周年登場，以及於二零二八年開幕的「**歷險主題區**」，我們將進一步深化與大自然主題融合的多元娛樂體驗，為世界各地訪客提供更多糅合休閒與歷險的體驗，延續海洋公園獨有的魅力。

SUSTAINABILITY

可持續發展

ENABLING SUSTAINABLE DEVELOPMENT

推動可持續發展

At Ocean Park Corporation (OPC), sustainability is not merely a commitment; it is woven into the very fabric of our institutional ethos. Our robust Environmental, Social and Governance (ESG) framework is meticulously designed to safeguard the enduring well-being of nature, animals, and humankind. This comprehensive approach seamlessly integrates ESG principles across all facets of our operations.

This year, we continue to align with the 17 United Nations Sustainable Development Goals and manifest our commitments in substantial ways: contributing to Hong Kong's 2050 carbon neutrality target, championing conservation through education and advocacy, upholding the highest standards of health and safety for our dedicated staff, while cultivating a responsible, inclusive corporate structure and deepening community engagement.

對海洋公園公司(公園)而言，可持續發展不僅是一項承諾，更是深深植根於公園的核心價值理念。我們構建了健全的環境、社會及管治(ESG)框架，致力追求維護大自然、動物與人類的長遠福祉，並將 ESG 原則全面融入決策過程和日常營運之中。

今年我們繼續遵循十七個聯合國可持續發展目標，以具體而持續的行動實現我們的承諾：推進香港邁向二零五零年碳中和目標、通過多元化教育與倡議工作推動保育、為員工恪守最高的健康與安全標準，以及通過建立嚴謹的管理體系和深度的社會協作，建立負責任、共融的企業架構。

Our environmental imperative

Throughout the financial year, OPC's dedication to safeguarding the planet manifested in a multitude of crucial initiatives. We proactively implemented measures to enhance energy efficiency, conserve vital resources and significantly reduce our carbon footprint. Simultaneously, we forged powerful partnerships with leading institutions, driving impactful conservation education, and launching compelling public awareness campaigns.

Embracing new technology for food waste management

OPC has a decade-long practice of collecting food waste. Not only from our kitchen, but also from food waste bins at staff canteens and restaurants to encourage food waste recycling among guests and non-kitchen staff. In November 2024, OPC introduced a new-generation food waste recycling mechanism. We installed a **Food TranSmarter** to automatically liquefy food waste from major food production lines at the Park into slurry.

守護環境 任重道遠

在本財政年度，公園繼續透過多項關鍵行動，充分展現致力守護地球的決心。我們積極推行多項措施以提升能源效益、善用資源及大幅減少碳足跡。同時，我們與多個業界翹楚及專業機構建立強大的夥伴關係，推動保育教育及開展打動人心的公眾宣傳，喚起社會對可持續發展的支持。

利用科技升級廚餘管理

公園實踐廚餘回收超過十年。除了園內的廚房，我們亦在員工餐廳和餐飲食肆設置了廚餘回收箱，鼓勵訪客及非廚房崗位的同事一同參與。於二零二四年十一月，我們引入新一代**廚餘再生俠**，將園內主要食品生產線的剩餘食材自動轉化成漿液。

The technology offers an innovative, clean and highly hygienic solution for processing and transporting up to 500kg of food waste a day, transforming it into a valuable resource for renewable energy generation. Once it undergoes anaerobic processing, what was considered waste yields biogas, electricity and nutrient-rich fertiliser.

The Food TranSmarter's airtight design not only eliminates odours but also upholds stringent hygiene standards, even during extended storage. The system has enabled us to reduce food waste collection frequency from daily to weekly, thereby curtailing carbon emissions from transportation. Its scope has since expanded to encompass animal feed preparation and sorted leftovers. This represents a major leap in sustainability, operational efficiency, and environmental responsibility.

Facilitating collaboration and building actionable insights

Since 2012, OPC's **Sustainable Roundtable** remains central to facilitating the exchange of knowledge and insights in conservation and environmental protection in Hong Kong, and jointly exploring feasible solutions. Initially focused on carbon reduction strategy and 10-year targets, it evolved into a collaborative platform. Guest hosts since 2015 have facilitated exploration of innovative sustainability initiatives and dialogues.

這項創新、潔淨且衛生度高的設施每日可處理高達五百公斤廚餘，將其轉化成寶貴的再生能源。漿液經厭氧分解生產沼氣及電力，並製成富養分的肥料。

廚餘再生俠的密封設計有效杜絕異味，即使長時間儲存亦能保持高度衛生，讓我們由原本每日收集廚餘改為每周一次，減少運輸過程的碳排放。其應用範圍更擴展至處理動物飼料的準備及剩食分類，全面提升營運效率與環保效益，展現公園在可持續發展方面的重大突破。

集思廣益 付諸行動

自二零一二年起，公園便舉行「可持續發展圓桌會議」，就香港的保育及環境保護等議題，交流知識及經驗，並共同探討可行的方案。會議初期集中討論減碳策略及十年目標，其後發展成跨界協作平台，並自二零一五年起擴闊業界參與，共同探討創新可持續發展項目。

This year's roundtable, held on 24 March 2025 at Maxim's Centre, featured speakers from Ocean Park, Maxim's Group, Hung Yat Farm, Lingnan University and A Plastic Ocean Foundation.

OPC underscored its advocacy for environmental responsibility by presenting its **Mission R** initiative, further highlighting the importance of driving tangible action at the community level. With 44 participants representing 24 enterprises and organisations, the event emphasised the transformative impact of collaboration. Hand-in-hand, we remain steadfast in our pursuit of a shared vision for a truly sustainable future.

Further amplifying our dedication to fostering industry-wide sustainability, the Hong Kong Quality Assurance Agency's (HKQAA) **Hong Kong Food and Catering Industry Sustainability Summit** was held on 21 November 2024 at the Applause Pavilion of the Park. The forum drew together key industry leaders, including Hong Kong Cyberport Management Company Limited, CLP Power Hong Kong Limited, Towngas, and Keeta, to exchange insights and real-world expertise, to further sustainable progress within the industry. Our proactive engagement included garnering support for Ocean Park's impactful Mission R and Eat Local initiatives from HKQAA and other industry leaders, reinforcing our collaborative vision for a more sustainable future within Hong Kong's food and catering landscape.

二零二五年三月二十四日，圓桌會議於美心集團中心舉行，來自海洋公園、美心集團、鴻日農莊、嶺南大學及海塑基金會等單位的代表在會議中分享經驗。

會上，公園向與會人士闡述「逆瀕行動」計劃，並呼籲社會各界付諸實行。本年度的活動獲二十四間企業及機構、共四十四位代表出席，冀發揮合作精神，攜手邁向可持續發展的未來。

為進一步推動餐飲業的可持續發展，由香港品質保證局發起的「香港餐飲業可持續發展峰會」於二零二四年十一月二十一日在海洋公園怡慶坊舉行。是次峰會匯聚業界領袖，包括香港數碼港管理有限公司、中華電力有限公司、香港中華煤氣有限公司及Keeta，分享可持續發展的見解及實務經驗，進一步推動業界邁向更可持續的未來。活動中，海洋公園積極爭取香港品質保證局及多位業界領袖支持公園的「逆瀕行動」和「食本地鮮」倡議，進一步鞏固我們與業界攜手推動香港餐飲業可持續發展的共同願景。

Striving towards carbon neutrality by resolving the problem at source

OPC proudly embraces its pivotal role in championing initiatives that propel the government's goal of achieving carbon neutrality by 2050. We continue to advance waste reduction and source separation for recycling, while simultaneously cultivating a strong sense of responsibility for sustainable development among our staff. In September 2024, we organised the **Ocean Park Recycling Competition** to further enhance staff awareness of environmental protection, recycling and waste reduction. Over 8,500kg of recyclables were collected during the event.

OPC also supported the Environmental Protection Department's GREEN@COMMUNITY programme, and installed smart recycling bins at Ocean Square, encouraging visitors to take part in recycling and energising community participation in recycling initiatives.

Strategic resource utilization

OPC has also adopted zero global-warming-potential gas absorption chillers in selected animal exhibits, achieving energy savings while minimising global warming impacts. Our dedication to decarbonisation is equally evident at Water World. The same chillers have been deployed alongside a range of energy-efficient architectural features. This includes the use of transparent ethylene tetrafluoroethylene roof for its construction works that enhances natural lighting and heat retention; a curtain-wall system that provides natural ventilation; and translucent skylight system and green roofs that reduce the need of artificial lighting and mitigate radiant heat gain.

源頭做起 邁向碳中和

公園積極支持政府提出二零五零年達致碳中和的目標，積極推動減廢及分類回收，同時培養員工對可持續發展的責任感。我們在二零二四年九月舉行「**海洋公園回收比賽**」，藉此加強員工對環境保護、回收及減少廢物的認知，活動共回收超過八千五百公斤可回收物品。

公園亦響應環境保護署的「綠在區區」計劃，於海洋廣場設置智能回收箱，鼓勵訪客參與回收之餘，為社區回收注入新動力。

精明善用資源

公園亦於部分動物展館採用零全球暖化潛能氣體吸收式製冷機，在節省能源的同時，將全球暖化影響降至最低。我們在水上樂園的減碳承諾同樣顯而易見，園區安裝了相同類型的製冷機，並配合多項高能源效益的建築設計，當中包括採用透明氟塑膜屋頂，以提升天然採光及保溫效果；設置幕牆系統以提供自然通風；以及使用半透明天窗系統和綠化屋頂，以減少對人工照明的需求並降低輻射熱能吸收。

Our holistic approach to resource management extends to our visitor experiences. The refurbishment of Tuxedos Restaurant with textiles crafted from reclaimed plastic bottles, and the upgrade of The Bayview Restaurant's furnishings using recycled materials are two examples of how the Park integrates upcycling into its operations in creative ways.

我們亦將高效的資源管理融入到訪客體驗中。冰極餐廳進行翻新時，我們採用由回收膠樽製成的布料作為室內陳設；而灣景餐廳亦採用以循環再造物料製成的傢具，實踐公園以創新方式把升級再造融入日常營運中。

Remark: Data covering both Ocean Park and Water World
備註：包括海洋公園和水上樂園回收數字

Enriching lives

Throughout the financial year, OPC leveraged its resources and expertise in conservation, education and entertainment to wholeheartedly serve the local community and champion inclusivity. We forged alliances with major non-governmental organisations, enabling us to extend our reach to underserved communities. Through joy-filled days at Ocean Park and Water World, we offered memorable experiences and disseminated our vital messages of sustainability and conservation.

Giant panda excitement: a catalyst for community engagement

The privilege of caring for six giant pandas during the financial year, a number unmatched outside the Chinese Mainland, amplified Ocean Park's capacity for serving the Hong Kong community. This remarkable feat underscored our leadership in conservation and education, advancing our mission to create fun and meaningful experiences grounded in nature. The sheer excitement surrounding these beloved animal ambassadors captivated a wider audience across diverse backgrounds, unlocking fresh avenues for deeper community engagement.

Among our social engagement events, Ocean Park and the Hong Kong Eastern District Youth Exchange Promotion Association co-organised the **Strive and Rise Programme — Thousand-Person Ocean Exploration Journey 2024** on 13 July 2024. This event provided 1,000 secondary students (Form 1 to Form 4) from underserved families across Hong Kong's 18 districts a free and meaningful day at the Park.

豐富每個人的生活

在本財政年度，公園充分運用在保育、教育及娛樂方面的資源和專業知識，全心服務本地社群，並積極推動共融理念。我們與主要的非政府組織緊密合作，將服務延伸至資源不足的社群。透過海洋公園及水上樂園的同樂日，我們為大眾帶來難忘回憶，同時傳遞可持續發展與保育的重要訊息。

大熊貓熱潮：激發社群參與

公園有幸於本財政年度一共飼養六隻大熊貓，成為中國內地以外在同一設施最多大熊貓的地方，亦為我們提供更多平台，更好地服務香港社群。此非凡機遇不僅體現海洋公園在保育與教育領域的領導地位，更有助實踐公園創造有趣而有意義體驗的使命。公眾對這些可愛動物大使的廣泛關注，亦為我們開闢了全新途徑，接觸更多不同背景的社會群體。

在眾多社區參與活動中，海洋公園與香港東區青年交流促進會在二零二四年七月十三日合辦「共創明『Teen』計劃——千人海洋探索之旅2024」，讓來自全港十八區、共一千名來自資源不足社群家庭的中一至中四學生免費暢遊海洋公園，度過饒富意義的一天。

As an inter-departmental initiative led by Chief Secretary for Administration Mr Chan Kwok-ki, the Strive and Rise Programme fosters government, business and community collaboration to broaden young people's horizons, enhance their self-confidence, and help them build positive life values for goal-setting. This event created an unforgettable day for students from diverse backgrounds to visit giant pandas Ying Ying and Le Le up close, explore the marine world, build friendships and embark on new experiences.

We also partnered with **Southern District Care Teams** and **Alife Volunteers** to ignite pure joy in children. We curated two special sessions, offering participants an up-close encounter with Hong Kong's giant panda twin cubs. The children were captivated by an intimate view of Jia Jia and De De's playful antics — climbing trees and swinging joyfully — creating moments of pure delight and etching memories that will last a lifetime.

「共創明『Teen』計劃」由政務司司長陳國基領導的跨部門行動小組主導，透過政、商、民三方協作，推動學員開闊眼界，增強自信心，建立正向人生觀，並為未來設定目標。是次活動為學生們帶來難忘的一天，來自不同背景同學一同近距離觀看大熊貓盈盈和樂樂，探索海洋世界，建立友誼，並開拓全新的經歷。

我們亦與「南區關愛隊」及「Alife Volunteers」合作，為兒童帶來純真歡樂。我們精心安排兩個專屬場次，讓參加者近距離接觸香港大熊貓龍鳳胎寶寶。孩子們透過近距離觀察加加和得得爬樹、跑動等活潑可愛的模樣，沉浸在單純的快樂中，為他們帶來難忘的珍貴回憶。

Our commitment extends to supporting children battling serious illness. An example is our collaboration with Hong Kong Children's Hospital on 7 May 2025, where we crafted a truly memorable experience for two incredibly brave young girls: Kiu Kiu, a seven-year-old fighting neuroblastoma, and Kwan Kwan, a 17-year-old facing stage four neuroblastoma. Kiu Kiu's family yearned to enrich her life with joyful memories before her upcoming treatment, while Kwan Kwan wished to relive the cherished moments of a previous visit during her earlier treatment journey. At OPC, we are dedicated to lifting these children's spirits, offering moments of respite, and powerfully reinforcing that they are never alone on their courageous journeys.

From 4 to 6 April 2025, OPC orchestrated the **Toy Donation Drive**, spreading joy to underserved children over the Easter period. A heartwarming total of 676 generous donors contributed 1,342 toys, which were then meticulously sanitised and sorted by our OPC volunteers before being thoughtfully distributed to six Community Living Rooms across Hong Kong.

我們亦把關心和支持帶給患有重病的兒童。例如在二零二五年五月七日，我們與香港兒童醫院合作，為兩位勇敢的女孩帶來難忘體驗：七歲的神經母細胞瘤患者蕎蕎，以及同樣是神經母細胞瘤患者，並已進入第四期，十七歲的君君。蕎蕎的家人希望在她即將接受治療前，為她帶來美好回憶；而君君則希望重溫在治療初期暢遊海洋公園的珍貴時光。公園致力於為這些兒童帶來歡樂，讓他們得到一點慰藉，並深切讓他們感受到在這段勇敢的旅程中，他們從不孤單。

二零二五年四月四日至六日，公園號召「玩具收集大行動」，在復活節期間為資源不足社群的兒童送上歡樂。活動共吸引六百七十六位熱心人士捐贈一千三百四十二件玩具。這些玩具經由我們的義工仔細消毒和分類後，贈送予香港六間社區客廳。

Passionate volunteers driving community impact

Embodying our commitment to societal enrichment, OPC's volunteer teams created an astounding total of 43,527 hours in support of community well-being throughout the financial year, a remarkable 54% increase from the previous year. Their diverse missions included the **Brick Hill Biodiversity Survey**, the **International Volunteer Day — Horseshoe Crabs Ecological Survey**, the **Welcome Green Turtle Back! Beach Cleanup**, the **Rise Wise Foundation's Therapy Dog Experiential Day** with SEN children, **A Day with Food Angel**, and many more initiatives that touched countless lives.

During the **Welcome Green Turtles Back! Beach Cleanup**, our volunteer team collaborated with the Agriculture, Fisheries and Conservation Department and the Hong Kong Sheng Kung Hui Welfare Association. Together, they tirelessly removed nearly 120kg of accumulated rubbish in just two days, contributing to cleaner coastal habitats. This initiative included a dedicated learning session on 8 March 2025, where all volunteers gained insights into sea turtle conservation. On 29 March 2025, the group embarked on a journey to Sham Wan on Lamma Island, a unique and vital location as Hong Kong's sole site where green turtles occasionally come ashore to nest.

熱心義工創造社群影響力

海洋公園義工團隊秉持造福社會的使命，於本財政年度創造四萬三千五百二十七小時社會服務，較去年大幅增加百分之五十四。義工項目多元化，包括：「南朗山生物多樣性調查」、「國際義工日——馬蹄蟹生態調查」、「『龜』來吧！淨灘活動」、惠及有特殊教育需要小朋友的「晉智慈善基金治療犬共融體驗日」，以及「惜食體驗日」等等，溫暖了無數生命。

在「『龜』來吧！淨灘活動」中，義工團隊與香港漁農自然護理署、香港聖公會福利協會合作，僅用兩天便清理了近一百二十公斤堆積垃圾，為海岸棲息地帶來潔淨環境。二零二五年三月八日，團隊更安排專題研習環節，讓所有義工深入了解綠海龜保育知識，隨後於三月二十九日前往南丫島深灣——香港唯一有綠海龜登陸築巢的珍貴地點，開展實地行動。

The **Brick Hill Biodiversity Survey** saw volunteers from Ocean Park and Ocean Park Conservation Foundation, Hong Kong documenting the rich fauna and flora composition of Brick Hill, both day and night. This assessment is crucial for formulating future conservation initiatives. A highlight from our previous 2023 survey was the first record of a Romer's tree frog at Brick Hill — a precious wild animal safeguarded under the Wild Animals Protection Ordinance.

For the **Horseshoe Crabs Ecological Survey**, we extended invitations to dedicated volunteer teams from other companies participating in the **Inter-Company Volunteer Week 2024**. Their assistance enabled our research team to collect crucial data on species population and distribution, which will enhance our ability to monitor and safeguard the mudflat.

在「南朗山生物多樣性調查」中，海洋公園及香港海洋公園保育基金義工團隊不分晝夜，詳實記錄當地豐富的動植物種類。這項評估對制訂未來保育計劃至關重要。值得一提，在二零二三年的調查中，團隊首次在南朗山記錄到盧氏小樹蛙——一種受《野生動物保護條例》保護的珍貴野生動物。

隨著「馬蹄蟹生態調查」展開，我們邀請了來自其他機構並參與「2024 跨企業義工周」的義工隊加入。在他們的協助下，研究團隊成功收集物種數量及分布等關鍵數據，為提升泥灘監測與保護奠定基礎。

Volunteering time in total 義工計劃服務時數

54% 43,527 hours 小時

Beyond these structured engagements, our employees passionately contributed to serving the wider community, supporting 47 diverse volunteer activities in financial year 2024-2025. Their efforts spanned initiatives such as cleaning up beaches, providing comfort at animal shelters, participating in charity walks, and delivering hot meals to families in need, the elderly and individuals with disabilities.

A notable highlight of our volunteer calendar was the OPC's team participating in **Ginkgo House's meal distribution programme** in Sham Shui Po. Our volunteers served nourishing hot meals and soup to low-income residents, addressing food insecurity and the immediate community needs.

除了上述經過策劃的活動之外，我們的員工亦熱心服務更廣泛的社群，於二零二四至二零二五財政年度參與了四十七項義工活動，涵蓋多個範疇，包括清潔海灘、服務動物收容所、參與慈善步行，以及為有需要的家庭、長者及殘疾人士派送熱食。

義工活動的另一亮點，是海洋公園義工團隊參與「銀杏館在深水埗開展的送餐計劃」。義工們為低收入居民送上營養豐富的餐點與熱湯，滿足他們的基本需要，提供即時援助。

Fundraising activities

We extend our sincere gratitude to our visitors for their generous support of OPC's giant panda conservation and education endeavours. From 17 October 2024 to 28 February 2025, HK\$174,883 was raised under the Public Subscription Permit issued by Social Welfare Department (PSP) number 2024/127/1, bringing in net proceeds of HK\$171,155 after deducting HK\$3,728 in related expenditures. Another HK\$118,842 was raised under PSP number 2025/038/1 from 7 March 2025 to 30 June 2025, bringing in net proceeds of HK\$117,873 after deducting HK\$969 in related expenditures.

籌款活動

我們衷心感謝各位訪客慷慨支持公園的大熊貓保育及教育工作。2024年10月17日至2025年2月28日期間，在由社會福利署發出的公開籌款許可證（公開籌款許可證）編號2024/127/1下，共籌得港幣174,883元，扣除港幣3,728元的相關開支後，淨收益為港幣171,155元。另外，根據公開籌款許可證編號2025/038/1，於2025年3月7日至2025年6月30日期間籌得港幣118,842元，扣除港幣969元的相關開支，淨收益為港幣117,873元。

Furthermore, our employee volunteers represented OPC in the **Hong Kong & Kowloon Walk for Millions 2024/2025** and the **Pok Oi x Old Master Q Hong Kong Charity Run 2025**. Through their participation, they helped raise funds for essential community services, showcasing our team's commitment to supporting local charities.

Our dedication to service has been recognised and celebrated. We are immensely proud recipients of two prestigious accolades: Non-Commercial Organisation – Bronze Award from the Hong Kong Volunteer Awards, honouring our completion of 2,000 to 4,999 impactful service hours, and a distinguished Participating Company recognition from Time Auction's Inter-Company Volunteer Week. Our enthusiastic volunteers stand ready, poised to continue lending their helping hands to those in need, further enriching lives across our community.

此外，我們的義工亦代表海洋公園參加了「2024/2025年度港島、九龍區公益金百萬行」及「博愛 × 老夫子香港慈善跑 2025」，籌得款項捐贈支持有需要社區服務，充分體現團隊對本地慈善事業的承諾。

我們的服務精神，獲得廣泛認可與嘉許。海洋公園榮獲兩項殊榮，包括香港義工獎——非商業機構銅獎，以表揚我們完成二千至四千九百九十九小時社會服務時數；以及由跨企業義工周頒發的傑出參與公司獎狀。我們熱心的義工團隊已準備就緒，隨時準備繼續向有需要的人士伸出援手，進一步豐富社群的生活。

Management structure to drive ESG 推動環境、社會及管治的管理架構

Upholding the highest standards: our governance framework

Serving as a statutory body, OPC holds high standards of corporate governance and compliance. This commitment is evidenced by a flawless record of zero non-compliance or corruption incidents in financial year 2024–2025. Our robust management structure, anchored by the Sustainability Leadership Team, ensures accountability, transparency and integrity. This team oversees seven subgroups: Governance, Environmental, Guests, Health and Safety, Employee, Community and Supply Chain.

Our business ethics, fully detailed in our Code of Corporate Governance Practices and Staff Code of Conduct, form the foundation for all operations. This extends to our supply chain responsibility, where we encourage suppliers and contractors to embrace the same commitment to environmental matters as OPC itself.

Uncompromising safety

At OPC, safety is a priority across all our operations. Our rides undergo rigorous inspections that surpass stringent government standards. An expert team of skilled staff meticulously conducts daily, weekly, monthly, annual and special maintenance checks. Independent ride-surveyors perform comprehensive annual inspections, with their detailed reports submitted to the Electrical and Mechanical Services Department for verification.

Beyond internal protocols, we proactively engage international safety consultants to conduct safety reviews on all rides, ropeway systems and infrastructure. Our sophisticated risk management approach guarantees continuous review, adopting global best practices and proactive safety measures, securing a seamless and protected experience for our staff, visitors and animals.

恪守最高標準： 企業管治框架

作為法定機構，公園一向堅守高水平的企業管治及合規要求。在二零二四至二零二五財政年度，我們保持零違規及零貪污事件的紀錄，印證了公園在誠信及責任方面的承擔。公園健全的管理架構貫徹問責、透明及符合操守原則。可持續發展領導團隊轄下共有七個專責小組，分別負責企業管治、環境、訪客、健康及安全、員工、社群及供應鏈。

我們的營運操守載於《企業管治常規守則》及《員工行為準則》，並作為所有日常營運的根本準則。這份承諾更延伸至供應鏈管理，我們鼓勵所有供應商及承辦商在環境責任方面，與海洋公園保持一致的高標準。

安全至上

公園一直將安全視為營運的重中之重。我們的機動遊戲均經過嚴謹檢查，標準更超過政府的嚴格要求。由專業人員組成的檢修團隊，會按日、周、月及年定期檢查設施，並在需要時進行專項維修，保障運作安全。除此之外，獨立機動遊戲檢查員每年亦會展開全面檢驗，並將詳細報告提交機電工程署核實。

除了內部程序，我們更主動聘請國際安全顧問，為機動遊戲、索道系統及基礎設施進行全方位的安全審查。公園多層次的風險管理方法，確保持續進行安全檢討、採納全球最佳實踐模式及主動制訂安全措施，為員工、訪客及動物締造流暢而可靠的體驗。

A thriving work environment

At OPC, we are committed to fostering a supportive, engaging and healthy work environment where every member of our team can thrive. Throughout the year, we implemented well-being programmes to boost morale, enhance skills and champion health. These initiatives included Charge up with Free Drinks sessions and Flash Lucky Draw! events, complemented by festive celebrations such as Christmas Bingo and Chinese New Year game booths. All these efforts were orchestrated to create moments of relaxation and foster a cohesive atmosphere.

Fostering unparalleled team spirit and robust physical well-being was promoted through dynamic sports and team-building activities. Our Dragon Boat team engaged in training and races, while our football team showcased their skills in friendly matches and in the Corporate Games 2025. Our activities also included a team bowling competition, hikings and tours, fostering camaraderie and shared experiences.

Empowering holistic well-being

To ignite both personal and professional development, we encouraged our employees to explore interests and acquire new skills. This was facilitated through a suite of engaging programmes, including a locking dance workshop, a Chinese narcissus carving workshop, and the popular Staff Farming Joy Scheme. Holistic health and wellness are paramount, championed through yoga classes, health seminars, practical workshops on calorie management and pain reduction, and life-saving training such as essential cardiopulmonary resuscitation (CPR), and Automated External Defibrillator (AED) courses. Furthermore, we regularly provided health talks on wellness management as well as introduction to first aid services.

實現成長與共榮的工作環境

公園致力建構一個支持發展、鼓勵參與以及促進健康的工作環境，讓每個員工都有機會發展和成長。年內我們推行了多項員工計劃，以提升士氣、技能及健康質素。多項活動包括免費飲品充電站、快閃幸運抽獎，以及聖誕遊戲和農曆新年遊戲攤位等節日慶祝活動，為員工帶來片刻放鬆，營造團結氣氛。

我們亦透過運動和團隊建立活動，促進團隊精神與員工的身心健康。我們的龍舟隊經常進行訓練及參加比賽，足球隊則在不同的友誼賽和「工商機構運動會2025」中一展球技。我們的活動還包括團隊保齡球比賽、遠足及旅遊等，以增強友誼和團隊精神。

促進身心健康

我們鼓勵員工實踐個人與職場雙向發展，並安排一系列活動，包括鎖舞工作坊、水仙雕刻班，以及深受歡迎的員工耕種同樂日，讓他們探索更多興趣，學習新技能。我們亦關注員工的身心健康，除開設瑜珈班、健康講座、卡路里管理及減痛實用工作坊外，更提供急救訓練，包括心肺復甦法(CPR)及自動體外心臟去顫器(AED)操作課程。此外，我們亦定期舉辦健康管理分享會及急救服務簡介，全方位照顧員工身心所需。

Employee well-being programmes

員工福祉項目

Special leaves

(e.g. work anniversary leave, birthday leave, company sports competition leave and conservation/CSR leave)

特別假期

(如工作周年假、生日假、公司體育比賽假及保育/企業社會責任工作假期)

Hospitality

(e.g. staff previews like Halloween Fest, giant pandas preview and annual dinner)

員工酬謝活動

(如「哈囉喂全園祭」預覽、大熊猫預覽及員工聯歡晚會)

Competitions

(e.g. dragon boat, talent shows, bowling, singing and mahjong)

員工競賽

(如龍舟、才藝表演、保齡球、唱歌以及麻將)

Trainings

(e.g. Wellness and health management, first aid, service excellence, Personal Data (Privacy) Ordinance)

訓練課程

(如身心健康管理、急救、優質服務及個人資料(私隱)條例)

Workshops

(e.g. locking dance, Chinese narcissus carving, natural mosquito repellent and herbal sachet making)

工作坊

(如鎖舞、水仙雕刻、天然驅蚊劑及中草藥香囊製作工作坊)

Surprise gifts

(e.g. festive items, food and beverage and gift coupons)

禮物贈送

(如節日禮品、餐飲及購物禮券)

Building a sustainable legacy through visionary growth

OPC's identity is rooted in sustainability since our inception, guiding growth, shaping experiences and defining opportunities. To that end, ESG principles have evolved into fundamental operating imperatives.

Over four decades, these guiding principles have steered our pioneering efforts in animal welfare, biodiversity conservation, and community engagement. They have illuminated our path, enabling us to foster environmental stewardship, thereby building an enduring legacy. Through captivating, immersive experiences and initiatives, we aspire to inspire a collective, transformative shift towards a sustainable way of life, ensuring our positive influence resonates across Hong Kong.

憑遠見締造可持續傳承

自成立以來，公園一直以推動可持續發展為己任，並以此支持業務發展，創造訪客體驗，以及開拓新機遇。時至今日，ESG原則已成為我們的營運準則。

四十多年來，這些原則持續引領我們在動物福祉、生物多樣性保育及社區參與方面不斷創新，為我們照亮前路，踐行保護環境的責任，建立長遠傳承。透過具啟發性的沉浸式體驗及多元項目，我們期望激勵社會各界，實現更廣泛而深遠的改變，讓公園的影響力在香港持續深植人心。
